

Whitburn Church of England Academy

Safeguarding and Child Protection Policy

Preface - Vision and values

The Academy Vision and Values can be found here:

<https://www.whitburncofeacademy.org/about-us/academy-ethos.html>

This policy and its associated procedures are based on these key principles and values.

Purpose and aim

Whitburn Church of England Academy's Safeguarding and Child Protection Policy aims to provide clear direction to staff and others about expected codes of behaviour in dealing with child welfare concerns. The policy also aims to make explicit the academy's commitment to the development of good practice and sound procedures to keep children safe in our school.

The purpose of Whitburn Church of England Academy's safeguarding policy is to ensure every child who is a registered student at our school is safe and protected from harm. This means we will always work to:

- Protect children and young people at our school from maltreatment;
- Prevent impairment of our children's and young people's mental and physical health or development;
- Ensure that children and young people at our school grow up in circumstances consistent with the provision of safe and effective care;
- Undertake that role so as to enable children and young people at our school to have the best outcomes.

This policy will give clear direction to staff, volunteers, visitors and parents about expected behaviour and our legal responsibility to safeguard and promote the welfare of all children at our school.

Our school fully recognises the contribution it can make to protect children from harm and supporting and promoting the welfare of all children who are registered students at our school. The elements of our policy are prevention, protection and support.

We recognise that our safeguarding responsibilities are clearly linked to our responsibilities for ensuring that appropriate safeguarding responses are in place for children who are absent from school or who go missing from education, particularly on repeat occasions. The Attendance Officer will regularly liaise with the Designated Safeguarding Lead and/or Deputy DSLs to discuss all persistently absent students and those who go missing to identify the risk of abuse and neglect including sexual abuse or exploitation and to ensure that appropriate safeguarding responses have been put in place to reduce the risk of future harm.

Introduction

Whitburn Church of England Academy fully recognises the contribution it can make to keeping children safe and supporting the students in its care. The child's welfare is of paramount importance. Our school will establish and maintain an ethos where students feel secure, are encouraged to talk, are listened to and are safe. Children at our school will be able to talk freely to any member of staff at our school if they are worried or concerned about something.

Everyone who comes into contact with children and their families has a role to play in safeguarding children. We recognise that staff at our school play a particularly important role as they are in a position to identify concerns early and provide help for children to prevent concerns from escalating. All staff are advised to maintain an attitude of 'it could happen here' where safeguarding is concerned. When concerned about the welfare of a child, staff members must always act in the best interests of the child.

All staff and regular visitors will, through training and induction, know how to recognise indicators of concern, how to respond to a disclosure from a child and how to record and report this information. We will not make promises to any child and we will not keep secrets. Every child will know what the adult will have to do with any information they have chosen to disclose.

Throughout our curriculum we will provide activities and opportunities for children to develop the skills they need to identify risks and stay safe. This will also be extended to include material that will encourage our children to develop essential life skills, e.g. as part of the RSHE programme.

At all times we will work in partnership and endeavour to establish effective working relationships with parents, carers and colleagues from other agencies in line with Working Together to Safeguard Children 2023 and Local Safeguarding Partners' Procedures.

All Staff have a responsibility to recognise child abuse, neglect and child on child abuse in its many forms. Additional guidance on how our school supports the following areas of need, additional need or harm are either hyperlinked to the areas identified below from Keeping Children Safe in Education 2024 or a named school policy. These must be read in conjunction with this policy.

The areas include:

- [Bullying including cyberbullying](#)
- [Children missing education \(guidance for local authorities 2024\)](#)
- [Children missing Home or care](#)
- [Child sexual exploitation – \(CSE\) & Keeping Children Safe 2024 \(Annex A\)](#)
- [Domestic Violence](#)
- [Drugs](#)
- [Fabricated or induced Illness](#)
- [Faith Abuse](#)
- [Female genital mutilation \(FGM\) Keeping Children Safe 2024 \(Annex A\)](#)
- [Forced Marriage – Keeping Children Safe 2024 \(Annex A\)](#)
- [Gangs and youth violence](#)
- [Gender Based Violence/violence against Women and Girls \(VAWG\)](#)

- [Hate](#)
- [Mental Health](#)
- [Missing children and adult strategy](#)
- [Private fostering](#)
- [Preventing radicalisation Keeping Children Safe 2024 \(Annex A\)](#)
- [Relationship abuse](#)
- [Sexting new guidance from DfE](#)
- [Trafficking](#)
- [Child on child Abuse \(now known as Child on Child Abuse\) Keeping Children Safe 2024 \(Annex A\)](#)
- [Working together](#)

In the event of any of these issues being recognised, information should be shared directly with the Designated Safeguarding Lead or the Deputy DSLs which may result in the situation being monitored and supported in school or the student/s being referred to specific services.

The policy applies to Whitburn Church of England Academy's whole workforce.

Definition of safeguarding

Safeguarding and promoting the welfare of children is defined as:

- Providing help and support to meet the needs of children as soon as problems emerge
- protecting children from maltreatment, whether that is within or outside the home, including online
- preventing the impairment of children's mental and physical health or development
- ensuring that children grow up in circumstances consistent with the provision of safe and effective care
- taking action to enable all children to have the best outcomes. (KCSIE 2024).

Child protection is part of safeguarding and promoting the welfare of children and is defined as activity that is undertaken to protect specific children who are suspected to be suffering, or likely to suffer, significant harm. This includes harm that occurs inside or outside the home, including online.

Effective safeguarding means practitioners should understand and be sensitive to factors, including economic and social circumstances and ethnicity, which can impact children and families' lives. (Working Together to Safeguard Children 2023)

Why Safeguarding is important

At our school we feel it is important for children to receive the right help, at the right time to address risk and prevent issues from escalating. Research and serious case reviews have repeatedly shown the dangers of failing to take effective action. Examples of poor practice include:

- failing to act and refer early signs of abuse and neglect
- poor record-keeping
- failing to listen to the views of the child
- failing to re-assess concerns when situations do not improve
- not sharing information, delays in sharing
- lack of challenge to those who appear not to be taking action

Our school policies and procedures aim to address all areas of poor practice and we ensure staff seek advice when unsure.

Framework and Legislation

No schools operate in isolation. Keeping children safe from significant harm is the responsibility of all adults, especially those working with children. The development of appropriate procedures and the monitoring of good practice are the responsibilities of South Tyneside Local Safeguarding Children Board which includes the partnership of several agencies who work with children and families across the borough.

Whitburn Church of England Academy is committed to respond in accordance with Child Protection: South Tyneside Local Safeguarding Children Board procedures www.southtyneside.gov.uk and partner agencies in all cases where there is a concern about significant harm. We follow Sunderland Safeguarding Children Board procedures <http://www.sunderlandscb.com> for children that reside in Sunderland local authority.

Significant Harm is defined in The Children's Act 1989 as the ill-treatment (including sexual abuse and physical abuse) or the impairment of health (physical or mental) or development (physical, intellectual, emotional, social or behavioural) as compared to a similar child.

Note: harm now includes the impairment of a child's health or development as a result of witnessing the ill treatment of another person. (*Adoption and Children Act 2002*).

Local Authorities have a duty to investigate (under S47 of the Children Act 1989). Where a Local Authority is informed that there is a child who is living, or is found, in their area and they have reasonable cause to suspect that child is suffering or is likely to suffer significant harm they must make such enquiries as necessary to promote or safeguard the child's welfare. The Contacts and Referral Team, Children's Safeguarding undertakes this responsibility on behalf of the Local Authority once a referral has been made.

Keeping Children Safe in Education September 2024 contains information on what schools and colleges **should** do and sets out the legal duties with which schools and colleges **must** comply. It should be read alongside Working Together to Safeguard Children 2023 which applies to all the schools and colleges, including maintained nursery schools. The Children Act 1989 sets out the Legal Framework.

Roles and Responsibilities for all staff

It is the responsibility of every member of staff, volunteer and regular visitor to our school to ensure that they carry out the requirements of this policy and, at all times, work in a way that will safeguard and promote the welfare of all of the students at this school. This includes the responsibility to provide a safe environment in which children can learn.

The Governing Body

The Governing Body of Whitburn C of E Academy is accountable for ensuring the effectiveness of this policy and our compliance with it. Although our Governing Body takes collective responsibility to safeguard and promote the welfare of our students, we also have a named Governor appropriate who champions safeguarding within the school.

The Senior Lead Governor for Safeguarding in Whitburn Church of England Academy is Mrs A Tobin. The Governing Body will ensure that:

- The Safeguarding policy is in place and is reviewed annually, is available publicly via our school website and has been written in line with Local Authority guidance and the requirements of the Local Safeguarding Partners' (Formally LSCB) policies and procedures;
- The school contributes to inter-agency working in line with Working Together to Safeguard Children (2023);
- The school is compliant with online safety legislation by regularly reviewing the effectiveness of school filters and monitoring systems. They should ensure that the leadership team and relevant staff have an awareness and understanding of the provisions in place and manage them effectively and know how to escalate concerns when identified.
- A senior member of staff from the leadership team is designated to take the lead responsibility for safeguarding and child protection and that there is a Deputy DSL(s) who is appropriately trained to deal with any issues in the absence of the Designated Safeguarding Lead (DSL). There will always be cover for this role;
- All staff receive a safeguarding induction and are provided with a copy of this policy and the staff code of conduct;
- All staff undertake appropriate child protection training that is updated regularly, at least annually.
- Procedures are in place for dealing with allegations against members of staff and volunteers, in line with statutory guidance;
- Safer recruitment practices are followed in accordance with the requirements of 'Keeping Children Safe in Education' DfE (2024);
- Governors remedy without delay any weakness in regard to our safeguarding arrangements that are brought to their attention.

The Governing Body will receive an annual safeguarding report that will record the training that has taken place, the number of staff attending and any outstanding training requirements for the school. It will also record all safeguarding activity and will inform the Governing Body how the school meets its statutory requirements.

The Governing Body will also undertake a range of ‘safeguarding visits’ over the year to monitor compliance within the safeguarding agenda.

The Principal at Whitburn C of E Academy, is responsible for:

- Identifying a senior member of staff from the leadership team to be the Designated Safeguarding Lead (DSL);
- Identifying alternative members of staff to act as the Designated Safeguarding Lead (DSL) in her absence to ensure there is always cover for the role;
- Ensuring that the policies and procedures adopted by Governing Body, particularly concerning referrals of cases of suspected abuse and neglect, are followed by all staff;
- Ensuring that all staff and volunteers feel able to raise concerns about poor or unsafe practice and such concerns are addressed sensitively in accordance with agreed whistle-blowing procedures;
- Liaison with the Local Authority Designated Officer (LADO) in the event of an allegation of abuse being made against a member of staff.

The Designated Safeguarding Lead

The Designated Safeguarding Lead is a senior member of staff, from the leadership team who takes lead responsibility for safeguarding and child protection within our school. The DSL will carry out their role in accordance with the responsibilities outlined in Annex B of ‘Keeping Children Safe in Education’ DfE (2024);

The DSL and/or Deputy will provide advice and support to other staff on child welfare and child protection matters. Any concern for a child’s safety or welfare will be recorded in writing (or on CPOMS) and given to the DSL.

During term time the Designated Safeguarding Lead and or a deputy will always be available (during school or college hours) for staff in the school or college to discuss any safeguarding concerns. If in exceptional circumstances, a DSL is not available on the school site in person, we will ensure that they are available via telephone and any other relevant media.

The DSL and/or Deputy will manage referrals and will: refer cases of suspected abuse to children’s social care, refer cases to the Channel programme if there is a radicalisation concern, refer relevant cases to the Disclosure and Barring Service, and to the Police where a crime has been committed.

The DSL and/or Deputy will attend child protection conferences and core group meetings. The DSL will liaise with the three safeguarding partners and other agencies where necessary. Through appropriate training, knowledge and experience our DSL will liaise with Children's Services and other agencies where necessary, and make referrals of suspected abuse to Children's Services, take part in strategy discussions and other interagency meetings and contribute to the assessment of children.

The DSL and/or Deputy will maintain detailed, accurate written records and child protection files ensuring that they are kept confidential and stored securely.

The DSL is responsible for ensuring that all staff members and volunteers are aware of our policy and the procedures they need to follow. They will ensure that all staff, volunteers and regular visitors have received appropriate child protection information during induction.

The DSL will help promote educational outcomes by sharing information about the issues that children, including children with a social worker, are experiencing, or have experienced, with teachers and leadership staff.

Whitburn Church of England Academy Governing body has appointed Mrs D A Tennet from the Senior Leadership Team to the role of Designated Safeguarding Lead. She has the overall responsibility for safeguarding and Child Protection and has the appropriate authority and training to undertake such a role; she is able to provide support to other staff on child welfare and child protection matters. She is able to take part in strategy discussions and inter-agency meetings and to support other trained staff to do so, as well as contribute to the assessment of children.

Additional Designated Safeguarding Leads

At Whitburn Church of England Academy, we have the Lead Deputy Safeguarding Lead who is Miss S Kassapian. Other appointed Deputy Designated Safeguarding Leads who are part of the Safeguarding team are; Miss D Smith, Mr J Crowe, Mr L Craggs, Mr C Shaw, Mrs C Avary, Miss K Manning, Miss N Elleithy, Mrs J Ferguson, Mrs S Murray, Mrs L Fielding, Mrs N Henderson and Mrs R Coyne.

These individuals are trained to the same standard as the Designated Safeguarding Lead. Whilst the activities of the Designated Safeguarding Lead can be delegated to appropriately trained deputies, the ultimate lead responsibility for child protection will not be delegated and remains with the Designated Safeguarding Lead.

The Designated Safeguarding Lead or a Deputy should always be available to discuss Safeguarding concerns. If in exceptional circumstances, the Designated Safeguarding Lead (or Deputy) is not available, this should not delay appropriate action being taken. Staff should consider speaking to a member of the Senior Leadership team and/or take advice from local Children's Social Care. In these circumstances, any action taken should be shared with the Designated Safeguarding Lead (or Deputy) as soon as is practically possible.

However, if there is an **IMMEDIATE** safeguarding concern and the Designated Safeguarding Leads are unavailable, we will seek immediate support via the Integrated Safeguarding and Intervention Team in South Tyneside on (0191 424 5010) or, for those children that reside in Sunderland LA, Sunderland's Children's Safeguarding on 0191 520 5560 or via our Safeguarding Consultants Clennell Education Solutions 0191 214 6724.

The Designated Safeguarding Lead has a very detailed role (see below). The broad areas of responsibility for the Designated Safeguarding Lead are identified here:

Manage referrals

- Refer all cases of suspected abuse to the Integrated Safeguarding and Intervention Team
- Refer cases to the Disclosure and Barring Service (cases where a person is dismissed or left due to risk/harm to a child); and/or
- Refer to the Police (cases where a crime may have been committed including Sexual Exploitation (MSET lead), Radicalisation (through the Single Point of Contact for the Channel Panel), Female Genital Mutilation and Forced Marriage).
- Support staff who make referrals to the Integrated Safeguarding and Intervention Team, Channel Panel or Police as appropriate.

Work with others

- Liaise with the Principal to inform him of issues, especially ongoing enquiries under section 47 of the Children Act 1989 and police investigations.
- As required liaise with the case manager (Principal or, where the Principal is the subject of the allegations, the Chair of Governors) and the DO at the Local Authority for child protection concerns (all cases which concern a staff member).
- Act as a source of support, advice and expertise to staff on matters of safety and safeguarding and when deciding whether to make a referral by liaising with relevant agencies.

Undertake Training

When new staff join our school they will be informed of the safeguarding arrangements in place, including the recording and reporting procedures.

They will be provided with:

- Safeguarding and Child Protection Policy.
- Behaviour Policy.
- Staff Code of Conduct / Staff Behaviour Policy including whistleblowing procedures.

- Part One and Annex A of ‘Keeping Children Safe in Education’ DfE (2024).
- Safeguarding responses to children who go missing from education.
- Role of the Designated Safeguarding Lead (including the identity of the DSL and any deputies).

All staff are expected to read these key documents and fully understand their responsibility. They will also be provided with information about the school’s recording procedures.

Every new member of staff or volunteer will receive safeguarding training during their induction period within the first half term of joining the school. This programme will include information relating to signs and symptoms of abuse, how to manage a disclosure from a child, how to record and the remit of the role of the Designated Safeguarding Lead (DSL). The training will also include information about whistleblowing in respect of concerns about another adult’s behaviour and suitability to work with children. All staff will receive online safety training and relevant staff have an awareness and understanding of the provisions in place for filtering and monitoring. They will know how to escalate concerns.

In addition to the safeguarding induction, we will ensure that mechanisms are in place to assist staff to understand and discharge their role and responsibilities as set out in Part one of ‘Keeping Children Safe in Education’ DfE (2024); In order to achieve this, we will ensure that:

- all members of staff will undertake appropriate safeguarding training on an annual basis.
- we will evaluate the impact of this training;
- all staff members receive regular safeguarding and child protection updates (for example, via email, e-bulletins, staff meetings), as required, but at least annually, to provide them with the relevant skills and knowledge to safeguard children effectively;

All regular visitors, temporary staff and volunteers to our school will be made aware of our safeguarding procedures; they will be informed of whom our DSL and alternative staff members are and what the recording and reporting system is. DSL photos are displayed in the Atrium (reception area) and around the site.

The DSL, the alternative designated member(s) of staff and any other senior member of staff who may be in a position of making referrals or attending child protection conferences or core groups will attend appropriate training. In addition to formal training, the DSL will ensure that they update their knowledge and skills at regular intervals, but at least annually, to keep up with any developments relevant to their role.

Our Governing Body will also undertake appropriate training to ensure they are able to carry out their duty to safeguard all of the children at our school.

We actively encourage all of our staff to keep up to date with the most recent local and national safeguarding advice and guidance, Annex A of 'Keeping Children Safe in Education' (2024) provides links to guidance on specific safeguarding issues such as Child Sexual Exploitation and Female Genital Mutilation. In addition, throughout the school year we will brief staff on key issues identified within Keeping Children Safe in Education 2024.

Child Protection File

Child Protection information will be kept in a separate Child Protection file for each child, stored in a separate secure cabinet and/or CPOMS. Only Child Protection information will be kept in the file and this file will be kept up to date. Records of concern, copies of referrals, invitations to child protection conferences, core groups and reports will be stored here. All Child Protection files will include; a chronology, a contents front cover and will record significant events in the child's life.

Child Protection files will be the responsibility of the DSL. Child Protection information will only be shared with relevant staff / agencies on a 'need to know' basis in the child's interests and on the understanding that it remains strictly confidential.

Where children leave the school or college ensure their child protection file is transferred appropriately for any new school or college as soon as possible, but transferred separately from the main student file. They will ensure the secure transit and confirmation of receipt of hard copy files or for those transferred to other educational establishments.

Specific safeguarding issues

All staff should have an awareness of safeguarding issues, some of which are listed below. Staff should be aware that behaviours linked to drug-taking, alcohol abuse, truanting and sexting for example, put children in danger.

All staff should be aware that safeguarding issues can manifest themselves via child on child abuse. This is most likely to include, but may not be limited to, bullying (including cyberbullying), gender-based violence/sexual assaults and sexting. Staff should be clear as to the school or college's policy and procedures with regards to child on child abuse.

Expert and professional organisations are best placed to provide up-to-date guidance and practical support on specific safeguarding issues. For example, information for schools and colleges can be found on the TES, and the NSPCC websites. School and college staff can access government guidance as required on the issues listed below via GOV.UK and other government websites.

Contextual safeguarding concerning Whitburn C of E Academy

Whilst all schools will face similar challenges regarding safeguarding; particular safeguarding issues are prevalent for Whitburn students. These are: Water Safety (linking in with our location of being on the coast), road safety and drug misuse. These themes will be discussed in tutor time and RSHE and there will be specific assemblies on these themes for all year groups throughout the year.

All staff follow the school's procedures which are consistent with 'Working Together to Safeguard Children 2023' and Keeping Children Safe in Education 2024'.

It is not the responsibility of the school staff to investigate welfare concerns or determine the truth of any disclosure or allegation. All staff, however, have a duty to recognise concerns and maintain an open mind. Accordingly, all concerns regarding the welfare of students will be recorded and discussed with the designated senior person with responsibility for child protection (or another senior member of staff in the absence of the designated person) prior to any discussion with parents.

Identifying children and young people who may be suffering from significant harm

Teachers and other adults in school are well placed to observe any physical, emotional or behavioural signs which indicate that a child may be suffering significant harm. The relationships between staff, students, parents and the public which foster respect, confidence and trust can lead to disclosures of abuse, and/or school staff being alerted to concerns.

Definitions

As in the Children Acts 1989 and 2004, a child is anyone who has not yet reached his/her 18th birthday.

Harm means ill-treatment or impairment of health and development, including, for example, impairment suffered from seeing or hearing the ill-treatment of another; Development means physical, intellectual, emotional, social or behavioural development; Health includes physical and mental health; Ill-treatment includes sexual abuse and other forms of ill-treatment which are not physical.

Abuse, neglect and exploitation

Abuse: a form of maltreatment of a child. Somebody may abuse, neglect or exploit a child by inflicting harm or by failing to act to prevent harm. Children may be abused in a school/college, inside and outside of home, and online or in a family setting by those known to them or, more rarely, by others. Abuse, neglect and exploitation can take place wholly online, or technology may be used to facilitate offline abuse. Children may be abused by an adult or adults or by another child or children.

Abuse, neglect and exploitation

All staff will be made aware of indicators of abuse, neglect and exploitation. Knowing what to look for is vital for the early identification of abuse and neglect and specific safeguarding issues such as child criminal exploitation and child sexual exploitation so that staff are able to identify cases of children who may be in need of help or protection.

If staff are unsure, they should always speak to the designated safeguarding lead (DSL) or deputy.

Abuse, neglect and exploitation and safeguarding issues are rarely standalone events and cannot be covered by one definition or one label alone. In most cases, multiple issues will overlap with one another, therefore staff should always be vigilant and always raise any concerns with the DSL.

Safeguarding incidents and/or behaviours can be associated with factors outside the school and/or can occur between children outside of this environment. All staff, but especially the DSL should consider whether children are at risk of abuse or exploitation in situations outside their families. Extra-familial harms take a variety of different forms and children can be vulnerable to multiple harms including (but not limited to) sexual exploitation, criminal exploitation, sexual abuse, serious youth violence and county lines.

Technology is a significant component in many safeguarding and wellbeing issues. Children are at risk of abuse online as well as face to face. In many cases abuse will take place concurrently via online channels and in daily life. Children can also abuse other children online, this can take the form of abusive, harassing, and misogynistic messages, the non-consensual sharing of indecent images, especially around chat groups, and the sharing of abusive images and pornography, to those who do not want to receive such content.

In all cases, if staff are unsure, they should always speak to the DSL.

Further information about the different kinds of abuse can be found in the appendix.

What staff should do if they have a concern about a child

All staff **must** report **any** concerns they have about a child and not see these as insignificant. Staff should **not** assume a colleague or another professional will take action and share the concern.

On occasions, a referral is justified by a single incident such as an injury or disclosure of abuse. More often however, concerns accumulate over a period of time and are evidenced by building up a picture of harm over time; this is particularly true in cases of emotional abuse and neglect. In these circumstances, it is crucial that staff record and pass on concerns in accordance with this policy to allow the DSL to build up a picture and access support for the child at the earliest opportunity.

A reliance on memory without accurate and contemporaneous records of concern could lead to a failure to protect.

Staff must immediately report:

- any suspicion that a child is injured, marked, or bruised in a way which is not readily attributable to the normal knocks or scrapes received in play / every day normal activities
- any explanation given which appears inconsistent or suspicious
- any behaviours which give rise to suspicions that a child may have suffered harm (e.g. worrying drawings, play, actions)
- any concerns that a child may be suffering from inadequate care, ill treatment, or emotional maltreatment
- any concerns that a child is presenting signs or symptoms of abuse or neglect
- any significant changes in a child's presentation, including non-attendance
- any hint or disclosure of abuse from any person
- any concerns regarding person(s) who may pose a risk to children (e.g. living in a household with children present)

Children can sometimes show signs or act in ways they hope adults will notice and react to. All staff should be aware of this and remain vigilant. Staff must also consider children who might present as vulnerable.

Responding to Disclosure

Disclosures or information may be received from students, parents or other members of the public. School recognises that those who disclose such information may do so with difficulty, having chosen carefully to whom they will speak. Accordingly, all staff will handle disclosures with sensitivity.

Such information cannot remain confidential and staff will immediately communicate what they have been told to the Designated Safeguarding Lead.

Principles

Staff will not investigate but will, wherever possible, elicit enough information to pass on to the Designated Safeguarding Lead in order that s/he can make an informed decision of what to do next.

Staff will

- Listen to and take seriously any disclosure or information that a child may be at risk of harm
- Try to ensure that the person disclosing does not have to speak to another member of school staff

- Clarify the information
- Try to keep questions to a minimum and of an ‘open’ nature e.g. ‘Can you tell me what happened?’ rather than ‘Did x hit you?’
- Try not to show signs of shock, horror or surprise
- Not express feelings or judgments regarding any person alleged to have harmed the child
- Explain sensitively to the person that they have a responsibility to refer the information to the DSL
- Reassure the child that they will be taken seriously, supported and kept safe
- Listen to and take into account (wherever possible) the child’s wishes and feelings about the current situation as well as future plans
- Ask any necessary questions to determine the child’s wishes and feelings.
- Explain that only those who ‘need to know’ will be told
- Explain what will happen next and how the child will be involved (as appropriate)
- Ensure there is appropriate support made available
- Complete a referral on CPOMS

Our school adheres to child protection procedures that have been agreed locally through the Local Safeguarding Partners. Where we identify children and families in need of support, we will carry out our responsibilities in accordance with local threshold guidance.

Every member of staff, including volunteers working with children at our school, are advised to maintain an attitude of ‘it could happen here’ where safeguarding is concerned. When concerned about the welfare of a child, staff members should always act in the interests of the child and have a responsibility to take action as outlined in this policy.

Record and Report

All staff must report any concerns that they have and not see these as insignificant. Staff should not assume a colleague or another professional will take action and share the concern. On occasions, a referral is justified by a single incident such as an injury or disclosure of abuse. More often however, concerns accumulate over a period of time and are evidenced by building up a picture of harm over time; this is particularly true in cases of emotional abuse and neglect. In these circumstances, it is crucial that staff record and pass on concerns in accordance with this policy to allow the DSL to build up a picture and access support for the child at the earliest opportunity. A reliance on memory without accurate and contemporaneous records of concern could lead to a failure to protect.

It is not the responsibility of school staff to investigate welfare concerns or determine the truth of any disclosure or allegation. All staff, however, have a duty to recognise concerns and pass the information on in accordance with the procedures outlined in this policy.

The Designated Safeguarding Lead (DSL) should be used as a first point of contact for concerns and queries regarding any safeguarding concern in our school. Any member of staff or visitor to the school who receives a disclosure of abuse or suspects that a child is at risk of harm must report it immediately to the DSL or, if unavailable, to the alternative designated person. In the absence of either of the above, the matter should be brought to the attention of the most senior member of staff.

All concerns about a child or young person should be reported without delay and recorded in writing using the agreed procedures (CPOMS or by completing a cause for concern passed on).

Following receipt of any information that raises concern, the DSL will consider what action to take and seek advice from Children's Services as required. If, at any point, there is a risk of immediate serious harm to a child, a referral should be made to children's social care immediately and if a criminal offence has been committed contact the police. Anybody can make a referral. If the child's situation does not appear to be improving, then the staff member with concerns should press for re-consideration by raising concerns again with the DSL and/or the headteacher. Concerns should always lead to help for the child at some point. All concerns, discussions and decisions made, and the reasons for those decisions should be recorded in writing. If in doubt about recording requirements, staff should discuss this with the Designated Safeguarding Lead.

All referrals will be made in line with Local Children's Services' procedures.

Threshold Levels

If, at any point, there is a risk of immediate serious harm to a child a referral should be made to Children's Services immediately. Anybody can make a referral. If the child's situation does not appear to be improving then the staff member with concerns should press for re-consideration by raising concerns again with the DSL and/or the Head Teacher. Concerns should always lead to help for the child at some point.

Staff should always follow the reporting procedures outlined in this policy in the first instance. However, they may also share information directly with Children's Services, or the police if:

- the situation is an emergency and the Designated Safeguarding Lead, their alternative and the Head Teacher are all unavailable;
- they are convinced that a direct report is the only way to ensure the student's safety.

Any member of staff, who does not feel that concerns about a child have been responded to appropriately and in accordance with the procedures outlined in this policy, should raise their concerns with the Principal or the Chair of Governors. If any member of staff does not feel the situation has been addressed appropriately at this point then they should contact Children's Services directly with their concerns.

Early Help

Early help is organised early intervention to provide support as soon as a problem emerges at any point in a child's life.

If early help is appropriate, the Designated Safeguarding Lead (or Deputy) will generally lead on liaising with other agencies and setting up an inter-agency assessment, as appropriate.

Staff may be required to support other agencies and professionals in an early help assessment and, in some cases, where education is the fundamental factor, acting as the lead practitioner.

Early help assessments should be kept under review and referred to social care for assessment if the child's situation does not appear to be improving or is getting worse.

Statutory Children's Social Care Assessments and Services

Concerns about a child's welfare will be referred to the local authority children's social care by the DSL. Where a child is suffering, or is likely to suffer from harm, a referral to children's social care (and if appropriate the police) will be made immediately. Referrals will follow the local authority referral process.

Where a child in school has a Child in Need plan or a Child Protection plan, the school will liaise with children's social care, attend meetings and provide comprehensive and detailed reports.

All reports for Child in Need / Child Protection conferences will be prepared in advance, using the guidance and report template. The information contained in the report will be shared with parents before the conference as appropriate. In order to complete such reports, all relevant information will be sought from staff working with the child in school. All staff should be prepared to contribute to the report writing process.

Child on Child abuse

Children can abuse other children. This is generally referred to as child on child abuse and can take many forms. It can happen both inside and outside of school, online and face to face. There may also be reports where the children concerned attend two or more different schools.

Child on child abuse will not be tolerated. All staff will take a zero tolerance approach to any abusive behaviours and will stop and challenge inappropriate behaviours between peers, many of which may be sexual in nature. We recognise that even if there are no reported cases of child on child abuse that such abuse may still be taking place and all staff should be vigilant.

A difficult feature of child on child abuse is that the perpetrators could be victims themselves and possibly are being abused by other family members, other adults and children.

In cases where child on child abuse is identified we will follow our procedures for dealing with concerns, recognising that both the victim and perpetrator will require support.

The school takes the following steps to minimise the risk of child on child abuse:

- Promoting an open and honest environment where children feel safe and confident to share their concerns and worries
- Using the Relationship, Sex and Health Education and PSHE to educate and reinforce our messages through stories, role play etc. (Amend as appropriate)
- Ensuring school is well supervised, especially in areas where children may be vulnerable or have identified they are vulnerable
- Ensures staff are aware of the indicators and signs of child on child abuse and how to identify them
- Addresses inappropriate behaviour (even if it appears to be relatively minor)
- Has clear robust policies on dealing with key issues of behaviour such as cyber bullying
- Ensures staff and children are aware of the policies
- Ensures robust supervision and be aware of potential risky areas in the school
- Increases supervision during key times
- Takes steps to prevent isolation
- Separates children if needed
- Where risk is identified, an individual child risk assessment is put in place, reviewed and updated appropriately

The following systems are in place to enable children to confidently report any abuse:

- All children know who they can report to in school
- Assemblies signposting children to key actions / people
- Posters around school
- Informal/formal check ins with identified students

Each alleged incident will be recorded, investigated and dealt with on an individual basis based on the following principles:

- All information will be recorded in writing using the agreed procedures (CPOMS)
- All children involved (victim and alleged perpetrator) in school will be spoken to separately by the DSL
- Where the incident also involves a child at a different establishment the DSL will ensure effective liaison and information sharing
- All children involved (victim and alleged perpetrator) will be appropriately supported throughout the process
- The DSL will balance the child's wishes against their duty to protect the child and other children

- The school will work with our local safeguarding partners where appropriate
- The DSL may need to go against the victim's wishes and make a referral to children's social care or the police. This will be handled sensitively, the reasons explained to the victim and appropriate support made available
- Parents/carers will be informed of the incident and how their child will be dealt with and supported (unless this would put a child at greater risk)

Victims, perpetrators and any other children affected by child on child abuse will be supported in the following ways:

- Support will be tailored on a case-by-case basis
- All children involved will be supported by an allocated member of staff
- The needs and wishes of the victim will be taken into account, along with protecting the child
- Wherever possible, the victim and witnesses will be able to continue their normal routine
- The victim will never be made to feel they are the problem for making a report or made to feel ashamed for making a report
- All reasonable steps will be taken to protect the anonymity of any children involved in any report of sexual violence or sexual harassment
- Adequate measures will be put in place to protect the children involved and keep them safe
- A needs and risk assessment will be made and a safety plan put in place when required which will be renewed and adapted where necessary
- Early help, children's social care and other agencies will support where appropriate

Research tells us girls are more frequently identified as being abused by their peers, and girls are more likely to experience unwanted sexual touching in schools. Boys are less likely to report intimate relationship abuse. Boys report high levels of victimisation in areas where they are affected by gangs. There is an increasing evidence base emerging about the sexual exploitation of boys (both by adults and peers). We recognise that both boys and girls experience child on child abuse but can do so in different ways.

We recognise that child on child abuse can manifest itself in many ways such as:

- Child Sexual Exploitation / Child Criminal Exploitation
- Bullying (including cyberbullying, prejudice-based and discriminatory bullying)
- Physical abuse
- Radicalisation
- Abuse in intimate friendships / relationships
- Sexual violence and sexual harassment
- Gang associated and serious violence
- Initiation / hazing type violence and rituals
- Consensual and non-consensual sharing of nudes and semi-nudes images and /or videos
- Causing someone to engage in sexual activity without consent, such as forcing someone to strip, touch themselves sexually, or to engage in sexual activity with a third party
- Upskirting (which is a criminal offence)
- There are a number of factors that make children more vulnerable to child on child abuse:
 - Experience of abuse within their family
 - Living with domestic violence
 - Young people in care
 - Children who go missing
 - Children with additional needs (SEN and/or disabilities).

Some of the reasons why children abuse other children:

- The child may have been emotionally, physically, or sexually abused themselves
- The child may have witnessed physical or emotional abuse
- The child may have viewed sexually explicit / violent movies, video games or other materials

- The child may have just acted impulsively without meaning to harm anyone

Relationship abuse is unacceptable behaviour between any two people.

Consensual and non-consensual sharing of nude and semi-nude images and/or videos

The term ‘sharing nudes and semi-nudes’ is used to mean the sending or posting of nude or semi-nude images, videos or live streams by children under the age of 18 online. This could be via social media, gaming platforms, chat apps or forums. It could also involve sharing between devices via services like Apple’s AirDrop which works offline. The term ‘nudes’ is used as it is most commonly recognised by children and more appropriately covers all types of image sharing incidents.

The motivations for taking and sharing nude and semi-nude images, videos and live streams are not always sexually or criminally motivated. Such images may be created and shared consensually by children who are in relationships, as well as between those who are not in a relationship. It is also possible for a child in a consensual relationship to be coerced into sharing an image with their partner.

Incidents may also occur where:

- Children find nudes and semi-nudes online and share them claiming to be from a peer
- Children digitally manipulate an image of a child into an existing nude online
- Images created or shared are used to abuse peers e.g. by selling images online or obtaining images to share more widely without consent to publicly shame

The sharing of nudes and semi-nudes can happen publicly online, in 1:1 messaging or via group chats and closed social media accounts.

Nude or semi-nude images, videos or live streams may include more than one child. Creating and sharing nudes and semi-nudes of under-18s (including those created and shared with consent) is illegal which makes responding to incidents involving children complex. There are also a range of risks which need careful management from those working in education settings.

Many professionals may refer to ‘nudes and semi-nudes’ as:

- Youth produced sexual imagery or ‘youth involved’ sexual imagery indecent imagery. This is the legal term used to define nude or semi-nude images and videos of children under the age of 18.
- ‘Sexting’. Many adults may use this term, however some children interpret sexting as ‘writing and sharing explicit messages with people they know’ rather than sharing images.

- Image-based sexual abuse. This term may be used when referring to the non-consensual sharing of nudes and semi-nudes.

Initial response

When an incident involving nudes and semi-nudes comes to the attention of any member of staff:

- Confiscate the phone and switch it to 'flight mode' – if possible.
- The incident should be referred to the DSL (or deputy) as soon as possible with the phone.
- The DSL will hold an initial review meeting with appropriate staff. This may include the staff member(s) who heard the disclosure and the safeguarding or leadership team who deal with safeguarding concerns.
- There will be subsequent interviews with the children involved (if appropriate).
- Parents and carers will be informed at an early stage and involved in the process in order to best support the child unless there is good reason to believe that involving them would put the child at risk of harm.
- A referral will be made to children's social care and/or the police immediately if there is a concern that a child has been harmed or is at risk of immediate harm at any point in the process.

A disclosure may not be a single event and the child may share further information at a later stage.

Any direct disclosure by a child should be taken seriously. A child who discloses they are the subject of an incident of sharing nudes and semi-nudes is likely to be embarrassed and worried about the consequences. It is likely that disclosure in school is a last resort and they may have already tried to resolve the issue themselves.

Initial review meeting

The initial review meeting will consider the initial evidence and aim to establish:

- Whether there is an immediate risk to any child
- If a referral should be made to the police and/or children's social care
- If it is necessary to view the image(s) in order to safeguard the child – **in most cases, images or videos should not be viewed**
- What further information is required to decide on the best response
- Whether the image(s) has been shared widely and via what services and/or platforms as this may be unknown

- Whether immediate action should be taken to delete or remove images or videos from devices or online services
- Any relevant facts about the children involved which would influence risk assessment
- If there is a need to contact another education, setting or individual
- Whether to contact parents or carers of the children involved - in most cases they should be involved

An immediate referral to police and/or children's social care through the MASH or equivalent will be made if at this initial stage:

- The incident involves an adult.
- There is reason to believe that a child has been coerced, blackmailed or groomed, or there are concerns about their capacity to consent (for example, owing to special educational needs).
- What you know about the images or videos suggests the content depicts sexual acts which are unusual for the young person's developmental stage, or are violent.
- The images involve sexual acts and any child in the images or videos is under 13.
- You have reason to believe a child is at immediate risk of harm owing to the sharing of nudes and semi-nudes, for example, they are presenting as suicidal or self-harming.

If none of the above apply, the DSL may decide to respond to the incident without involving the police or children's social care. They can still choose to escalate the incident at any time if further information/concerns are disclosed at a later date.

The decision to respond to the incident without involving the police or children's social care will only be made in cases where the DSL is confident that they have enough information to assess the risks to any child involved and the risks can be managed within the school's support and disciplinary framework and, if appropriate, their local network of support.

Assessing the risks

The circumstances of incidents can vary widely. If at the initial review stage a decision has been made not to refer to police and/or children's social care, the DSL (or equivalent) should conduct a further review (including an interview with any child involved) to establish the facts and assess the risks.

When assessing the risks and determining whether a referral is needed, the following should be also considered:

- Why was the nude or semi-nude shared? Was it consensual or was the child put under pressure or coerced?
- Has the nude or semi-nude been shared beyond its intended recipient? Was it shared without the consent of the child who produced the image?
- Has the nude or semi-nude been shared on social media or anywhere else online? If so, what steps have been taken to contain the spread?
- How old are any of the children involved?
- Did the child send the nude or semi-nude to more than one person?
- Do you have any concerns about the child's vulnerability?
- Are there additional concerns if the parents or carers are informed?

The DSL will decide whether a child is at risk of harm, in which case a referral will be appropriate, whether additional information or support is needed from other agencies or whether the education setting can manage the incident and support any child or young person directly. The DSL will always use their professional judgement in conjunction with that of their colleagues to assess incidents.

Supporting the child involved

The DSL or another member of staff (who the child feels more comfortable talking to) will discuss future actions and support with the child. This discussion will take into account the views of the child as well as balancing what are considered to be appropriate actions for responding to the incident.

The purpose of the discussion is to

- Identify, **without viewing wherever possible**, what the image contains and whether anyone else has been involved.
- Find out whether the image has been shared between two people or shared further. This may be speculative information as images or videos may have been shared more widely than the child or young person is aware of.
- Discuss what actions and support might be needed, including preventing further distribution.

When discussing the sharing of nudes and semi-nudes, the DSL/member of staff will:

- Reassure the child that they are not alone, and the school will do everything that they can to help and support them. They should also be reassured that they will be kept informed throughout the process.

- Recognise the pressures that children can be under to take part in sharing an image and, if relevant, support their parents and carers to understand the wider issues and motivations around this.
- Remain solution-focused and avoid any victim-blaming questions such as ‘why have you done this?’ as this may prevent the child from talking about what has happened. For example, they will use questions such as ‘describe what happened’ or ‘explain to me who was involved’.
- Help the child to understand what has happened by discussing the wider pressures that they may face and the motivations of the person that sent on the image(s).
- Discuss issues of consent and trust within healthy relationships. Explain that it is not ok for someone to make them feel uncomfortable, to pressure them into doing things that they do not want to do, or to show them things that they are unhappy about. Let them know that they can speak to the DSL or equivalent if this ever happens.
- Explain the law on the sharing of nudes and semi-nudes. It is important to highlight that the law is in place to protect children and young people rather than criminalise them and should be explained in such a way that avoids alarming or distressing them.
- Signpost to the IWF (Internet Watch Foundation) and Childline’s Report Remove tool. Report Remove helps children and young people to report an image shared online, to see if it is possible to get the image removed. This must be done as soon as possible in order to minimise the number of people that have seen the picture.

Informing parents and carers

Parents or carers will be informed and involved in the process at an early stage unless informing them will put a child or young person at risk of harm. Any decision not to inform the parents or carers will be made in conjunction with other services such as children’s social care and/or the police, who would take the lead in deciding when they should be informed.

Working with parents and carers

The school is committed to working in partnership with parents/carers to safeguard and promote the welfare of children and to support them to understand our statutory responsibilities in this area.

When new pupils join our school, parents and carers will be informed that we have a safeguarding policy. A copy will be provided to parents on request and is available on the school website. Parents and carers will be informed of our legal duty to assist our colleagues in other agencies with child protection enquiries and what happens should we have cause to make a referral to children’s social care.

We are committed to working with parents positively, openly and honestly. We ensure that all parents are treated with respect, dignity and courtesy. We respect parents' rights to privacy and confidentiality and will not share sensitive information unless we have permission or it is necessary to do so in order to safeguard a child from harm.

We will seek to share with parents any concerns we may have about their child unless to do so may place a child at increased risk of harm. A lack of parental engagement or agreement regarding the concerns the school has about a child will not prevent the DSL making a referral to children's social care in those circumstances where it is appropriate to do so.

In order to keep children safe and provide appropriate care for them, the school requires parents to provide accurate and up to date information regarding

- Full names and contact details of all adults with whom the child normally lives
- Full names and contact details of all persons with parental responsibility (if different from above)
- Emergency contact details (if different from above);
- Provide the school with more than one emergency contact for each child
- Full details of any other adult authorised by the parent to collect the child from school (if different from the above)

The school will retain this information on the children's file. The school will only share information about children with adults who have parental responsibility for a child or where a parent has given permission and the school has been supplied with the adult's full details in writing.

If in any doubt about information sharing, staff should speak to the DSL (or deputy). Fears about sharing information must not be allowed to stand in the way of the need to promote the welfare and protect the safety of children.

- We will build a partnership approach to online safety and will support parents / carers to become aware of and alert to the potential online benefits and risks for children by:
- Include details here e.g. providing information on our school / college website and through existing communication channels (such as official social media, newsletters etc.), offering specific online safety events for parents / carers or highlighting online safety at existing events.
- Share which filtering and monitoring systems are in place with parents / carers and children.
- Share what you are asking children to do online including which sites they might access.

Supporting parents and carers

Children and young people can be involved in an incident in several different ways. They may lose control of their own image, receive an image of someone else or share an image of another person. In any of these situations, parents and carers may find it difficult to know how to deal with the knowledge that their child has been involved in an incident and may display differing emotions.

Whatever their feelings, it is important that we listen to their concerns and take them seriously. We will also help to reassure parents and carers by explaining that it is normal for young people to be curious about sex.

In all situations, parents or carers will be

- Given information about the sharing of nudes and semi-nudes, what they can expect to happen next, and who will be their link person within the school.
- Given support to deal with their own feelings of upset and concern including signposting to further resources that can help them to understand the sharing of nudes and semi-nudes or support services they can contact, where appropriate.
- Given support on how to speak to their child about the incident.
- Advised on the law around the sharing of nudes and semi-nudes.
- Kept updated about any actions that have been taken or any support that their child is accessing, unless the child involved has specifically asked for this not to happen and is judged to be old enough to make that informed decision.
- Informed about sources of support for their child, in case they are feeling anxious or depressed about what has happened. This could include speaking to a Childline counsellor online or on 0800 11 11, in house counselling services where available, or a GP. If they are concerned that their child is suicidal, they should contact 999.
- Directed to NCA-CEOP if the child discloses any further details to them that may suggest they are being groomed or sexually exploited.

Searching devices, viewing and deleting nudes and semi nudes

Staff and parents or carers must not intentionally view any nudes and semi-nudes unless there is good and clear reason to do so as outlined below.

Wherever possible, responses to incidents will be based on what DSLs have been told about the content of the imagery.

The decision to view any imagery will be based on the professional judgement of the DSL. Imagery will never be viewed if the act of viewing will cause significant distress or harm to any child or young person involved.

If a decision is made to view imagery, the DSL would need to be satisfied that viewing is

- The only way to make a decision about whether to involve other agencies because it is not possible to establish the facts from any child involved.
- Necessary to report it to a website, app or suitable reporting agency to have it taken down, or to support the child or parent or carer in making a report.
- Unavoidable because a child has presented it directly to a staff member or nudes or semi-nudes have been found on an education setting's device or network.

If it is necessary to view the imagery, then the DSL will

- Never copy, print, share, store or save them; this is illegal. If this has already happened, we will contact the local police for advice and to explain the circumstances.
- Discuss the decision with the Principal or a member of the senior leadership team.
- Ensure viewing is undertaken by the DSL or another member of the safeguarding team with delegated authority from the Principal or a member of the senior leadership team.
- Ensure viewing takes place with another member of staff present in the room, ideally the Principal or a member of the senior leadership team. This staff member does not need to view the images.
- Wherever possible, make sure viewing takes place on the school premises, ideally in the Principal or a member of the senior leadership team's office.
- Ensure wherever possible that they are viewed by a staff member of the same sex as the child or young person in the images.
- Record how and why the decision was made to view the imagery in the safeguarding or child protection records, including who was present, why the nudes or semi-nudes were viewed and any subsequent actions. This will be signed and dated.
- If any devices need to be taken and passed onto the police, the device(s) will be confiscated and the police will be called. The device will be disconnected from Wi-Fi and data, and turned off immediately to avoid imagery being removed from the device remotely through a cloud storage service. The device will be placed in a secure place, in a locked cupboard until the police are able to come and collect it.

If nudes or semi-nudes have been viewed by a member of staff, either following a disclosure from a child or young person or as a result of a member of staff undertaking their daily role (such as IT staff monitoring school systems), the DSL will make sure that the staff member is provided with appropriate support. Viewing nudes and semi-nudes can be distressing for both children and adults and appropriate emotional support may be required.

In most cases, children and young people will be asked to delete the imagery and to confirm that they have deleted them. They will be given a deadline for deletion across all devices, online storage or social media sites. They will be reminded that possession of nudes and semi-nudes is illegal. They will be informed that if they refuse or it is later discovered they did not delete the imagery, they are continuing to commit a criminal offence and the police may become involved.

All incidents relating to nudes and semi-nudes being shared will be recorded using the school's procedures. Copies of imagery should not be taken or stored.

It is important that children and young people understand the school's policy towards nudes and semi-nudes. The content of this policy and the protocols the school will follow in the event of an incident will be explored as part of teaching and learning. This will reinforce the inappropriate nature of abusive behaviours and reassure children that school will support them if they experience difficulties or have concerns.

For more information: Sharing nudes and semi-nudes: advice for education settings working with children and young people - GOV.UK (www.gov.uk)

Cybercrime

Cybercrime is criminal activity committed using computers and/or the internet. It is broadly categorised as either 'cyber-enabled' (crimes that can happen off-line but are enabled at scale and at speed on-line) or 'cyber dependent' (crimes that can be committed only by using a computer). Cyber-dependent crimes include:

- Unauthorised access to computers (illegal 'hacking'), for example accessing a school's computer network to look for test paper answers or change grades awarded.
- Denial of Service (Dos or DDoS) attacks or 'booting'. These are attempts to make a computer, network or website unavailable by overwhelming it with internet traffic from multiple sources.
- Making, supplying or obtaining malware (malicious software) such as viruses, spyware, ransomware, botnets and Remote Access Trojans with the intent to commit further offence, including those above.

Children with particular skill and interest in computing and technology may inadvertently or deliberately stray into cyber-dependent crime. If there are concerns about a child in this area, the designated safeguarding lead (or a deputy), should consider referring into the Cyber Choices programme. This is a nationwide police programme supported by the Home Office and led by the National Crime Agency, working with regional and local policing. It aims to intervene where young people are at risk of committing, or being drawn into, low level cyber-dependent offences and divert them to a more positive use of their skills and interests.

Note that Cyber Choices does not currently cover 'cyber-enabled' crime such as fraud, purchasing of illegal drugs on-line and child sexual abuse and exploitation, nor other areas of concern such as on-line bullying or general on-line safety.

Additional advice can be found at: Cyber Choices, 'NPCC- When to call the Police' and National Cyber Security Centre - NCSC.GOV.UK.

Children with additional needs

We recognise that children with special educational needs (SEN) and disabilities can face additional safeguarding challenges and these are discussed in staff training. These additional barriers can include:

- assumptions that indicators of possible abuse such as behaviour, mood and injury relate to the child's disability without further exploration;
- children with SEN and disabilities can be disproportionately impacted by things like bullying - without outwardly showing any signs; and
- communication barriers and difficulties in overcoming these barriers.

Mental Health concerns

All staff should be aware that mental health problems can, in some cases, be an indicator that a child has suffered or is at risk of suffering abuse, neglect or exploitation.

If staff have a mental health concern about a child that is also a safeguarding concern, immediate action should be taken, following our child protection policy, and staff **MUST** speak to the designated safeguarding lead or a deputy.

We will ensure that our staff understand the support they can provide to pupils who may be experiencing mental health concerns, and we will ensure that staff follow the following principles as set out in 'Mental Health and Behaviour in Schools 2018'. We recognise that early intervention to identify issues and provide effective support is crucial. The school role in supporting and promoting mental health and wellbeing can be summarised as:

Prevention

we will seek to create a safe and calm environment where mental health problems are less likely, improving the mental health and wellbeing of the whole school population, and equipping pupils to be resilient so that they can manage the normal stress of life effectively. This will include teaching pupils about mental wellbeing through the curriculum and reinforcing this teaching through school activities and ethos;

Identification

we will support staff and pupils to recognise emerging issues as early and accurately as possible;

Early support

we will support and help pupils to access evidence based early support and interventions wherever possible and seek access to specialist support for those pupils who require such interventions.

We aim to work in partnership with pupils, parents / carers and establish effective relationships with external agencies to provide swift access or referrals to specialist support and treatment.

Honour Based Violence / FGM

At Whitburn C of E Academy we recognise that our staff are well placed to identify concerns and take action to prevent children from becoming victims of Female Genital Mutilation (FGM) and other forms of so-called 'honour-based' violence (HBV) and provide guidance on these issues through our safeguarding training. If staff have a concern regarding a child that might be at risk of HBV they should inform the DSL who will activate local safeguarding procedures, using existing national and local protocols for multi-agency liaison with police and children's social care.

FGM Duty

Where FGM has taken place, there has been a mandatory reporting duty placed on teachers since 31st October 2015. Section 5B of the Female Genital Mutilation Act 2003 (as inserted by section 74 of the Serious Crime Act 2015) places a statutory duty upon teachers in England and Wales, to report to the police where they discover (either through disclosure by the victim or visual evidence) that FGM appears to have been carried out on a girl under 18. Those failing to report such cases will face disciplinary sanctions. We will provide guidance and support to our teachers on this requirement. Further information on when and how to make a report can be found in the following Home Office guidance: 'Mandatory Reporting of Female Genital Mutilation - procedural information' (October 2015).

Radicalisation

We recognise that safeguarding against radicalisation and extremism is no different to safeguarding against any other vulnerability in today's society.

At Whitburn C of E Academy we will ensure that:

- Through training, staff, volunteers and governors have an understanding of what radicalisation and extremism is, why we need to be vigilant in school and how to respond when concerns arise.
- In our school there are systems in place for keeping students safe from extremist material when accessing the internet, by using effective filtering and appropriate usage policies.
- The DSL has received Prevent training and will act as the point of contact within our school for any concerns relating to radicalisation and extremism.

- The DSL will make referrals in accordance with Local Channel procedures and will represent our school at Channel meetings as required.
- Through our curriculum, we will promote the spiritual, moral, social and cultural development of students.

Working with parents/carers

Whitburn C of E Academy is committed to working in partnership with parents/carers to safeguard and promote the welfare of children and to support them to understand our statutory responsibilities in this area.

When new students join our school, parents and carers will be informed that we have a safeguarding policy. A copy will be provided to parents on request and is available on the school website. Parents and carers will be informed of our legal duty to assist our colleagues in other agencies with child protection enquiries and what happens should we have cause to make a referral to Children's Services.

We are committed to working with parents positively, openly and honestly. We ensure that all parents are treated with respect, dignity and courtesy. We respect parents' rights to privacy and confidentiality and will not share sensitive information unless we have permission or it is necessary to do so in order to safeguard a child from harm.

We will seek to share with parents any concerns we may have about their child unless to do so may place a child at increased risk of harm. A lack of parental engagement or agreement regarding the concerns the school has about a child will not prevent the DSL making a referral to Children's Services in those circumstances where it is appropriate to do so.

In order to keep children safe and provide appropriate care for them, the school requires parents to provide accurate and up to date information regarding:

- Full names and contact details of all adults with whom the child normally lives;
- Full names and contact details of all persons with parental responsibility (if different from above);
- Emergency contact details (if different from above);
- Provide the school with more than one emergency contact for each child
- Full details of any other adult authorised by the parent to collect the child from school (if different from the above).

The school will retain this information on the student file and parent will provide the school with more than one emergency contact for each child. The school will only share information about students with adults who have parental responsibility for a student or where a parent has given permission and the school has been supplied with the adult's full details in writing. If in any doubt about information sharing, staff should speak to the DSL or deputy DSL. Fears about sharing information must not be allowed to stand in the way of the need to promote the welfare and protect the safety of children.

Child Protection Conferences

Children's Services will convene a Child Protection Conference once a child protection enquiry under Section 47 of the Children Act 1989 has been undertaken and the child is judged to be at continuing risk of significant harm. A review conference will take place once a child has been made the subject of a Child Protection Plan in order to monitor the safety of the child and the required reduction in risk.

Staff members may be asked to attend a Child Protection Conference or core group meetings on behalf of the school in respect of individual children. Usually the person representing the school at these meetings will be the DSL or Deputy DSL. In any event, the person attending will need to have as much relevant, up to date information about the child as possible; any member of staff may be required to contribute to this process.

All reports for Child Protection Conferences will be prepared in advance, using the guidance and template report. The information contained in the report will be shared with parents before the conference as appropriate and will include information relating to the child's physical, emotional and intellectual development and the child's presentation at school. In order to complete such reports, all relevant information will be sought from staff working with the child in school.

Clearly Child Protection Conferences can be upsetting for parents. We recognise that we are likely to have more contact with parents than other professionals involved. We will work in an open and honest way with any parent whose child has been referred to Children's Services or whose child is subject to a Child Protection Plan. Our responsibility is to promote the protection and welfare of all children and our aim is to achieve this in partnership with our parents.

Safer working practice

All staff have a responsibility to maintain public confidence in their ability to safeguard the welfare and best interests of children. They should adopt high standards of personal conduct in order to maintain confidence and respect of the general public and those with whom they work.

All staff will be provided with a copy of our school's Code of Conduct at induction which sets out the school's expectations of staff behaviour. We will review our Code of Conduct regularly and ask staff to ensure that they are familiar with the current version. Staff are expected to carry out their duties in accordance with the Code of Conduct.

There will be occasions when some form of physical contact is inevitable, for example if a child has an accident or is hurt or is in a situation of danger to themselves or others around them. However, at all times the agreed policy for positive handling must be adhered to.

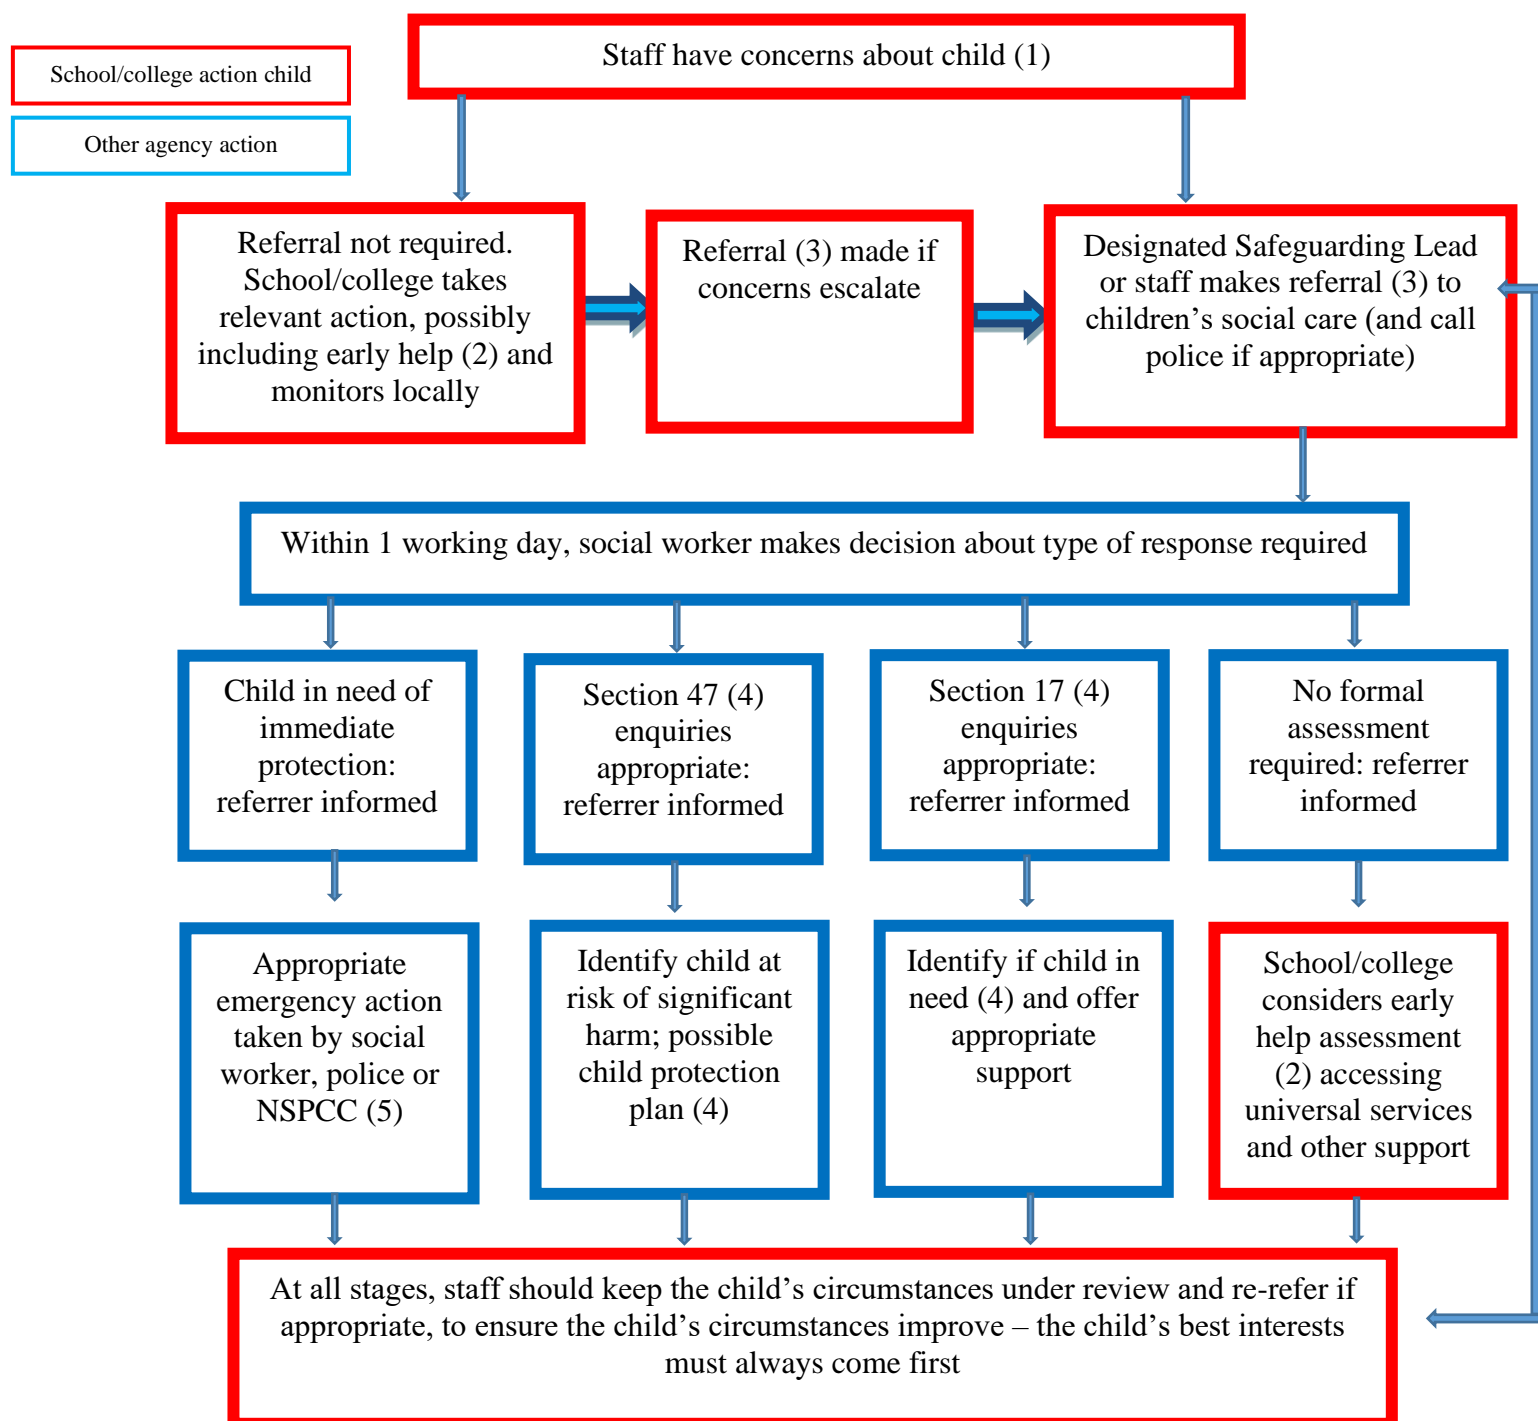

If staff, visitors, volunteers or parent helpers are working with children alone they must ensure they are visible to other members of staff. They will be expected to inform another member of staff of their whereabouts in school, who they are with and for how long. Doors, ideally, should have a clear glass panel in them and be left open.

Staff are responsible for their own actions and behaviour and should avoid any conduct which would lead any reasonable person to question their motivation and intentions. Further advice can be found in ‘Guidance for Safer Working Practices for Adults who Work with Children and Young People in Education Settings’ (2019). (Available on CES website).

All staff and volunteers are expected to carry out their work in accordance with this guidance and will be made aware that failure to do so could lead to disciplinary action.

From KCSIE 2024

Actions where there are concerns about a child

1. In cases which also involve an allegation of abuse against a staff member, see Part Four of this guidance/
2. Early help means providing support as soon as a problem emerges at any point in a child's life. Where a child would benefit from co-ordinated early help, and early help inter-agency assessment should be arranged. Chapter One of [Working Together to Safeguard Children](#) provides details guidance on the early help process
3. Referrals should follow the process set out in the local threshold document and local protocol for assessment. Chapter one of Working Together to Safeguard Children.
4. Under the Children Act 1989, local authorities are required to provide services for children in need for the purposes of safeguarding and promoting their welfare. This can include s17 assessments of children in need and S47 assessments of children at risk of significant harm. Full details are in Chapter One of [Working Together to Safeguarding Children/](#)
5. This could include applying for an Emergency Protection Order (EPO).

Whitburn Church of England Academy Governors have agreed and ratified the following policies, procedures, processes or systems which must be read and considered in conjunction with this policy:

Whistle Blowing/Confidential Reporting Policy

Whitburn Church of England Academy's Confidential Reporting (Whistleblowing) Policy provides guidance to staff and volunteers on how they can raise concerns and receive appropriate feedback on action taken, when staff have concerns about any adults behaviour.

Complaints / Allegation Management Towards or with a Child or Adult

A safeguarding complaint involving a member of staff must be reported to the Principal immediately. In the Principal's absence then Miss D Smith, Senior Deputy Head or Mrs D A Tennet, DSL must be informed. If the complaint involves the Principal, Miss D Smith, Senior Deputy Head must be informed. The Chair of Governors will also be informed. Where there are concerns about the Principal, this should be referred to the chair of governors, chair of the management committee or proprietor of an independent school as appropriate. In the event of allegations of abuse being made against the Principal, where the Principal is also the sole proprietor of an independent school, allegations should be reported directly to the designated officer(s) at the local authority. Staff may consider discussing any concerns with the school's designated safeguarding lead and make any referral via them. (KCSIE, 2024)

Consultation without delay with the LADO on 0191 424 6302 will determine what action follows. A multi-agency strategy meeting may be arranged to look at the complaint in its widest context; the Principal or lead DSL must attend this meeting which will be arranged by the Designated Officer. All issues must be recorded on the allegation management form and the outcome reached must be noted to ensure closure. www.southtyneside.gov.uk

Training and Support

All staff members will be made aware of systems within Whitburn Church of England Academy which support safeguarding and these will be explained to them as part of their induction into the school to ensure they can discharge their responsibilities effectively. This includes: Whitburn Church of England Academy's Child Protection policy; the academy's staff behaviour and safer working practice document policy (called 'Whitburn Code of Conduct'); and the names of the Designated Safeguarding Lead and Deputy DSLs.

All staff members also receive appropriate safeguarding and child protection training which is regularly updated. The Governing Body in consultation with Senior Leaders will decide the frequency and content of this CPD. In addition, all staff members should receive regular safeguarding and child protection updates as required but at least annually to provide them with relevant skills and knowledge to safeguard children effectively, with opportunities to contribute to reviewing and shaping the safeguarding arrangements.

Professional Confidentiality

Confidentiality is an issue which needs to be understood by all those working with children, particularly in the context of Safeguarding. Whitburn Church of England Academy recognises that the only purpose of confidentiality in this respect is to benefit the child. (See South Tyneside Safeguarding Children Board procedures at www.southtyneside.gov.uk and Sunderland procedures at <http://www.sunderlandscb.com>).

Record Keeping

Well-kept records are essential to good safeguarding practice. Whitburn Church of England Academy is clear about the need to record any concerns, discussions held, decisions made and reasons for those decisions held about a child or children within its care. All staff will follow the school's information sharing and recording protocols to ensure recording keeping is compliant.

Safeguarding recording within Whitburn Church of England is currently through CPOMS (from Feb 2020) and a paper-based system in addition to the use of a confidential drive on the school network. Following a child leaving our school we follow the appropriate transfer procedures and retention guidelines and we will continue to follow the appropriate transfer procedures and retention guidelines.

Supporting Children

Whitburn C of E Academy recognises that children who are abused or who witness violence may find it difficult to develop a sense of self-worth and to view the world in a positive way. Whitburn C of E Academy may be the only stable, secure and predictable element in the lives of some of the children in its care. The school, therefore, recognises that such children might exhibit challenging and defiant behaviour and will take careful note of the context of such behaviour.

As an Operation Encompass partner, we work closely with the Contact and Referral Team at South Tyneside Children's Services with regards to DV incidents and offer wellbeing checks to our students if we are contacted following an incident which has occurred in one of our student's homes.

Whitburn C of E Academy also recognises that children are capable of abusing their peers. Child on child abuse can take many forms and any concerns raised will be investigated and dealt with appropriately. No child on child abuse should be tolerated or minimised as part of growing up and all those involved will be provided with an appropriate level of support. It is understood that those students who have experienced abuse in their own lives may in turn abuse others. This requires a considered and sensitive approach in order that the child can receive appropriate help and support (see our Child on Child abuse policy for detailed information).

Therefore, Whitburn C of E Academy will endeavour to support all its students through:

- The curriculum to encourage self-esteem, self-motivation, self-protection.
- The school ethos, which promotes a positive, supportive and secure environment and which gives all students and adults a sense of being respected and valued.

- Approaches which allow children and young people to develop critical thinking, literacy skills and digital literacy skills.
- A curriculum which explores human rights, equality, democracy and tolerance and prepares children and young people fully for life in modern Britain.
- A coherent management of behaviour and discipline policy & procedures inclusive of the use of reasonable force.
- Liaison with other professionals and agencies who support children and parents.
- A commitment to develop productive, supportive relationships with parents whenever it is in the child's interest to do so.
- The development and support of a responsive and knowledgeable staff group whose role it is to respond appropriately in all safeguarding situations.

Whitburn C of E Academy recognises that, statistically, children with behavioural difficulties and disabilities are the most vulnerable to abuse. School staff who work, in any capacity, with children with profound and multiple disabilities, sensory impairment and/or emotional and behavioural problems will need to be particularly sensitive to signs of abuse. School staff must give consideration to children who are subject to a statement of special needs, an education health and care plan or have a medical condition, as these can mask safeguarding issues and must not be dismissed.

Whitburn C of E Academy also recognises that in a home environment where there is domestic violence, drug or alcohol misuse or mental health issues, children may also be vulnerable and in need of support and protection.

This policy **MUST** be read in conjunction with other related policies in school.

These include, for example:

- **Safer Recruitment policy**- inclusive of safer recruitment guidance and regulation, for example a **single central record** which demonstrates the pre-employment vetting checks (e.g. identity, professional qualifications, right to work in the UK, further checks on people who have lived or worked outside the UK including recording checks for those EEA teacher sanctions and restrictions), for the workforce who are in regulatory activity (enhanced DBS, children's/adult barred list, prohibition from teaching check, section 128 check) and supervision of those who don't meet this requirement.
- Clear recruitment procedures which embed safeguarding across every aspect from vacancy to conditional appointments, induction and an ongoing culture of vigilance.
- Trained panel members ensure that the policy work in practice in all recruitment and selection within the school.

- School Staffing (England) Regulations 2009, regulation 9: Regulation 9: require governing bodies of maintained schools to ensure at least one member of a recruitment panel must undertake safer recruitment training to satisfy all requirements in the statutory guidance Keeping Children Safe in Education 2024 and Working Together 2018. As an academy we share this commitment.
- South Tyneside Human Resources adopted policies and procedures.
- Staff Behaviour and Safer Working Practices Policy (**‘Whitburn Code of Conduct and Dress Code’**) for adults who work with young people and the Safer Recruitment Consortium Guidance for Safer Working Practices for those working with Young People in Education Settings, May 2019. The academy will ensure that all staff and volunteers are aware of the need for maintaining appropriate and professional boundaries in their relationships with young people and agree to work within all policies and procedures to safeguard both children and adults.
- Whitburn C of E Academy will ensure that staff and volunteers are aware that sexual relationships with students aged under 18 are unlawful and could result in legal proceedings taken against them under the Sexual Offences Act 2003 (Abuse of position of trust).
- Student Behaviour Management Policy.
- Restraint Policy.
- Anti-Bullying Policy.
- E-Safety Policy inclusive of appropriate usage documentation (including remote teaching and learning) - and the associated linked policies that cover the use of mobile phones, cameras and all other technology within the school or setting).
- Special Education Needs and Disability Policy.
- The school’s Educational Visits / Off Site policy (reviewed annually) reflects the consideration we give to the safeguarding of our children both within the school environment and when away from the school when undertaking school trips, visits or students being creatively educated.
- Child on child Abuse Policy.
- Safe Use of Images Policy with parental consent forms.
- Managing Medications and the Medical Needs of Students policy statement, including the administration of medicines policy and procedures with trained staff who manage this.
- Attendance Policy- school management for attendance and the partnership with the LA in reporting children missing from education and those deleted from the schools admission register.

- Children Missing from Education Policy – inclusive of runaways, missing, and children missing from education, ensuring appropriate safeguarding responses.
- Complaints Policy.
- Managing allegations.
- Procedure for dealing with Allegations made against Staff, Volunteers and Agency Workers.
- Confidential Reporting (Whistle blowing) Policy.
- Information Sharing Policy (internal and external exchange of information).
- Looked after Children (LAC) Policy - inclusive of the named LA teacher whose role is to champion the achievement of LAC in our school and work closely with the DSL and Virtual Principal within the LA who has responsibility for LAC.
- Equality (Single) Policy.
- Spiritual, Moral, Social and Cultural Curriculum inclusive of Female Genital Mutilation, Domestic abuse, Child Sexual Exploitation, Mental Health and Well-being and Fundamental British Values.
- Relationship education/Relationship and sex education.

This policy has been devised in accordance with the following legislation and guidance:

- ‘Working Together to Safeguard Children: A guide to inter-agency working to safeguard and promote the welfare of children’, DfE (2018).
- ‘Keeping Children Safe in Education’, DfE (2024).
- Local Safeguarding procedures.
- Guidance for Safer Working Practices for Adults who work with Children and Young People in Education Settings (May 2019).
- ‘What to do if you're worried a child is being abused’, DfE (March 2015).
- ‘Information Sharing: Advice for practitioners’, DfE (March 2015).
- ‘The Prevent Duty: Departmental advice for schools and childcare providers’, DfE (2015).
- ‘Mandatory Reporting of Female Genital Mutilation – procedural information’, Home Office (October 2015).

Appendix A: Different kinds of abuse, neglect and exploitation

Indicators of abuse and neglect

Abuse: a form of maltreatment of a child. Somebody may abuse or neglect a child by inflicting harm or failing to act to prevent harm. Children may be abused in a family or in an institutional or community setting; by those known to them, or, more rarely, by others. Abuse can take place online, or technology may be used to facilitate offline abuse. Children may be abused by an adult or adults or by another child or children.

We recognise that children are also vulnerable to physical, sexual and emotional abuse by their peers or siblings. (See child on child abuse)

Physical Abuse may involve hitting, shaking, throwing, poisoning, burning or scalding, drowning, suffocating or otherwise causing physical harm to a child. Physical harm may also be caused when a parent or carer fabricates the symptoms of or deliberately induces illness in a child.

Sexual Abuse involves forcing or enticing a child or young person to take part in sexual activities, not necessarily involving a high level of violence, whether or not the child is aware of what is happening. The activities may involve physical contact, including assault by penetration (for example, rape or oral sex) or non-penetrative acts such as masturbation, kissing, rubbing and touching outside of clothing. They may also include non-contact activities, such as involving children in looking at, or in the production of, sexual images, watching sexual activities, encouraging children to behave in sexually inappropriate ways, or grooming a child in preparation for abuse (including via the internet). Sexual abuse is not solely perpetrated by adult males. Women can also commit acts of sexual abuse, as can other children. The sexual abuse of children by other children is a specific safeguarding issue in education and all staff should be aware of it and of their school or college's policy and procedures for dealing with it.

Emotional Abuse is the persistent emotional maltreatment of a child such as to cause severe and persistent adverse effects on the child's emotional development.

It may involve conveying to children that they are worthless or unloved, inadequate, or valued only insofar as they meet the needs of another person. It may include not giving the child opportunities to express their views, deliberately silencing them or 'making fun' of what they say or how they communicate. It may feature age or developmentally inappropriate expectations being imposed on children. These may include interactions that are beyond the child's developmental capability, as well as overprotection and limitation of exploration and learning, or preventing the child participating in normal social interaction. It may involve seeing or hearing the ill-treatment of another. It may involve serious bullying (including cyberbullying), causing children frequently to feel frightened or in danger, or the exploitation or corruption of children. Some level of emotional abuse is involved in all types of maltreatment of a child, though it may occur alone.

We recognise that children with special educational needs (SEN) and disabilities can face additional safeguarding challenges and these are discussed in staff training. These additional barriers can include:

- Assumptions that indicators of possible abuse such as behaviour, mood and injury relate to the child's disability without further exploration
- Children with SEN and disabilities can be disproportionately impacted by things like bullying - without outwardly showing any signs
- Communication barriers and difficulties in overcoming these barriers

Neglect is the persistent failure to meet a child's basic physical and/or psychological needs, likely to result in the serious impairment of the child's health or development. Neglect may occur during pregnancy, for example, as a result of maternal substance abuse. Once a child is born, neglect may involve a parent or carer failing to:

- Provide adequate food and clothing, shelter (including exclusion from home or abandonment).
- Protect a child from physical and emotional harm or danger.
- Ensure adequate supervision (including the use of inadequate caretakers).
- Ensure access to appropriate medical care or treatment.

It may also include neglect of, or unresponsiveness to, a child's basic emotional needs.

We know that different forms of harm often overlap and that perpetrators may subject children and young people to multiple forms of abuse, such as criminal exploitation (including county lines) and sexual exploitation.

In some cases, the exploitation or abuse will be in exchange for something the victim needs or wants (for example, money, gifts or affection), and/or will be to the financial benefit or other advantage, such as increased status, of the perpetrator or facilitator.

Children can be exploited by adult males or females, as individuals or groups. They may also be exploited by other children, who themselves may be experiencing exploitation – where this is the case, it is important that the child perpetrator is also recognised as a victim.

Whilst the age of the child may be a contributing factor for an imbalance of power, there are a range of other factors that could make a child more vulnerable to exploitation, including gender, sexual identity, cognitive ability, learning difficulties, communication ability, physical strength, status and access to economic or other resources.

Some of the following can be indicators of both child criminal and sexual exploitation where children:

- Appear with unexplained gifts, money or new possessions
- Associate with other children involved in exploitation
- Suffer from changes in emotional well-being
- Misuse drugs and alcohol

- Go missing for periods of time or regularly come home late
- Regularly miss school or education or do not take part in education

Children who have been exploited will need additional support to help maintain them in education.

CCE

Some specific forms of CCE can include children being forced or manipulated into transporting drugs or money through county lines, working in cannabis factories, shoplifting or pickpocketing. They can also be forced or manipulated into committing vehicle crime or threatening/committing serious violence to others.

Children can become trapped by this type of exploitation as perpetrators can threaten victims (and their families) with violence, or entrap and coerce them into debt. They may be coerced into carrying weapons such as knives or begin to carry a knife for a sense of protection from harm from others. As children involved in criminal exploitation often commit crimes themselves, their vulnerability as victims is not always recognised by adults and professionals (particularly older children), and they are not treated as victims despite the harm they have experienced. They may still have been criminally exploited even if the activity appears to be something they have agreed or consented to.

It is important to note that the experience of girls who are criminally exploited can be very different to that of boys. The indicators may not be the same, however professionals should be aware that girls are at risk of criminal exploitation too. It is also important to note that both boys and girls being criminally exploited may be at higher risk of sexual exploitation.

CSE

CSE is a form of child sexual abuse. Sexual abuse may involve physical contact, including assault by penetration (for example, rape or oral sex) or non-penetrative acts such as masturbation, kissing, rubbing, and touching outside clothing. It may include non-contact activities, such as involving children in the production of sexual images, forcing children to look at sexual images or watch sexual activities, encouraging children to behave in sexually inappropriate ways or grooming a child in preparation for abuse including via the internet.

CSE can occur over time or be a one-off occurrence, can range from opportunist to complex organised abuse and may happen without the child's immediate knowledge e.g. through others sharing videos or images of them on social media.

It can involve force and/or enticement based methods of compliance and may, or may not, be accompanied by violence or threats of violence.

CSE can affect any child, who has been coerced into engaging in sexual activities. This includes 16 and 17 year olds who can legally consent to have sex. Some children may not realise they are being exploited e.g. they believe they are in a genuine romantic relationship.

The following list of indicators is not exhaustive or definitive but it does highlight common signs which can assist professionals in identifying children or young people who may be victims of sexual exploitation.

Signs include:

- Underage sexual activity
- Inappropriate sexual or sexualised behavior
- Sexually risky behaviour, e.g. 'swapping' sex
- Repeated sexually transmitted infections
- In girls, repeated pregnancy, abortions, miscarriage
- Having multiple mobile phones and worrying about losing contact via mobile phone
- Having unaffordable new things (clothes, mobile phone) or expensive habits (alcohol, drugs)
- Changes in the way they dress
- Going to hotels or other unusual locations to meet friends
- Seen at known places of concern
- Moving around the country, appearing in new towns or cities, not knowing where they are
- Getting in/out of different cars driven by unknown adults
- Having older boyfriends or girlfriends
- Contact with known perpetrators
- Involved in abusive relationships, intimidated and fearful of certain people or situations
- Hanging out with groups of older people, or anti-social groups, or with other vulnerable peers
- Recruiting other young people into exploitative situations
- Unexplained changes in behaviour or personality (chaotic, aggressive, sexual, mood swings, volatile behavior and / or emotional distress)
- Self-harming, suicidal thoughts, suicide attempts, overdosing, eating disorders
- Getting involved in crime / police involvement, police records

- Involved in gangs, gang fights, gang membership
- Injures from physical assault, physical restraint and/or sexual assault

County lines

County lines is a term used to describe gangs and organised criminal networks involved in exporting illegal drugs using dedicated mobile phone lines or other form of “deal line”. This activity can happen locally as well as across the UK - no specified distance of travel is required. Children and vulnerable adults are exploited to move, store and sell drugs and money. Offenders will often use coercion, intimidation, violence (including sexual violence) and weapons to ensure compliance of victims.

Children can be targeted and recruited into county lines in a number of locations including schools (mainstream and special), further and higher educational institutions, student referral units, children’s homes and care homes.

Children are also increasingly being targeted and recruited online using social media. Children can easily become trapped by this type of exploitation as county lines gangs can manufacture drug debts which need to be worked off or threaten serious violence and kidnap towards victims (and their families) if they attempt to leave the county lines network.

A number of the indicators for CSE and CCE as detailed above may be applicable to where children are involved in county lines. Some additional specific indicators that may be present where a child is criminally exploited through involvement in county lines are children:

- Persistently going missing from home or school and subsequently found in areas away from their home
- In excessive receipt of calls and text messages
- In relationships with older, controlling individuals
- Associated with gangs
- Under suspicion of self-harm, physical assault or unexplained injuries
- With parental concerns
- Showing a significant decline in school performance
- Demonstrating significant changes in emotional wellbeing
- Have been the victim or perpetrator of serious violence (e.g. knife crime)
- Are involved in receiving requests for drugs via a phone line, moving drugs, handing over and collecting money for drugs

- Are exposed to techniques such as ‘plugging’, where drugs are concealed internally to avoid detection
- Are found in accommodation that they have no connection with, often called a ‘trap house or cuckooing’ or hotel room where there is drug activity
- Owe a ‘debt bond’ to their exploiters
- Have their bank accounts been used to facilitate drug dealing

Serious Violence

All staff should be aware of the indicators, which may signal children are at risk from, or are involved with serious violent crime. These may include:

- Increased absence from school
- A change in friendships or relationships with older individuals or groups
- A significant decline in performance
- Signs of self-harm or a significant change in wellbeing
- Signs of assault or unexplained injuries

Unexplained gifts or new possessions could also indicate that children have been approached by, or are involved with, individuals associated with criminal networks or gangs and may be at risk of criminal exploitation (see above).

All staff should be aware of the range of risk factors which increase the likelihood of involvement in serious violence, such as:

- Being male
- Having been frequently absent or permanently excluded from school
- Having experienced child maltreatment
- Having been involved in offending, such as theft or robbery

So-called ‘honour-based’ abuse (HBA)

So-called ‘honour-based’ abuse (HBA) encompasses incidents or crimes which have been committed to protect or defend the honour of the family and/or the community, including:

- Female Genital Mutilation
- Forced Marriage
- Breast Ironing

Abuse committed in the context of preserving “honour” often involves a wider network of family or community pressure and can include multiple perpetrators. It is important to be aware of this dynamic and additional risk factors when deciding what form of safeguarding action to take. All forms of HBA are abuse (regardless of the motivation) and should be handled and escalated as such. If in any doubt, staff should speak to the designated safeguarding lead (or deputy). Professionals in all agencies, and individuals and groups in relevant communities, need to be alert to the possibility of a child being at risk of HBA, or already having suffered HBA.

FGM

What is FGM?

It involves procedures that intentionally alter/injure the female genital organs for non-medical reasons.

4 types of procedure:

Type 1	Type 2	Type 3	Type 4
Clitoridectomy: Partial/total removal of clitoris	Excision: Partial/total removal of clitoris and labia minora	Infibulation: Entrance to vagina is narrowed by repositioning the inner/outer labia	All other procedures that may include: pricking, piercing, incising, cauterising and scraping the genital area

Why is it carried out?

Belief that FGM:

- Brings status / respect to the girl – social acceptance for marriage
- Preserves a girl’s virginity
- Is part of being a woman / rite of passage
- Upholds the family honour
- Cleanses and purifies the girl
- Gives a sense of belonging to the community
- Fulfils a religious requirement
- Perpetuates a custom / tradition
- Helps girls be clean / hygienic
- Is cosmetically desirable

- Mistakenly believed to make childbirth easier

FGM is internationally recognised as a violation of human rights of girls and women. It is **illegal** in most countries, including the UK.

Circumstances and occurrences that may point to FGM happening

- Child talking about getting ready for a special ceremony
- Family taking a long trip abroad
- Child's family being from one of the 'at risk' communities for FGM (Kenya, Somalia, Sudan, Sierra Leon, Egypt, Nigeria, Eritrea as well as non-African communities including Yemeni, Afghanistan, Kurdistan, Indonesia and Pakistan)
- Knowledge that the child's sibling has undergone FGM
- Child talks about going abroad to be 'cut' or to prepare for marriage

Signs that may indicate a child has undergone FGM:

- Prolonged absence from school and other activities
- Behaviour change on return from a holiday abroad, such as being withdrawn and appearing subdued
- Bladder or menstrual problems
- Finding it difficult to sit still and looking uncomfortable
- Complaining about pain between the legs
- Mentioning something that somebody did to them that they are not allowed to talk about
- Secretive behaviour, including isolating themselves from the group
- Reluctance to take part in physical activity
- Repeated urinary tract infections
- Disclosure

What staff should do if they have a concern about honour based abuse (HBA), including FGM

If staff have a concern regarding a child who might be at risk of HBA or who has suffered from HBA, they should speak to the DSL. As appropriate, the DSL will activate local safeguarding procedures, using existing national and local protocols for multi-agency liaison with police and children's social care.

Where FGM has taken place, there has been a mandatory reporting duty placed on teachers since 31st October 2015. Section 5B of the Female Genital Mutilation Act 2003 (as inserted by section 74 of the Serious Crime Act 2015) places a statutory duty upon teachers in England and Wales, to report to the police where they discover (either through disclosure by the victim or visual evidence) that FGM appears to have been carried out on a girl under 18. Those failing to report such cases will face disciplinary sanctions.

Further information can be found in the Multi-agency statutory guidance on female genital mutilation and the FGM resource pack particularly section 13.

Forced Marriage

Forcing a person into marriage is a crime in England and Wales. A forced marriage is one entered into without the full and free consent of one or both parties and where violence, threats or any other form of coercion is used to cause a person to enter into the marriage. Threats can be physical or emotional and psychological. A lack of full and free consent can be where a person does not consent or where they cannot consent (if they have learning disabilities, for example). Nevertheless, some communities use religion and culture as a way to coerce a person into marriage. Schools and colleges can play an important role in safeguarding children from forced marriage.

Signs and symptoms may include:

- Children may appear anxious, depressed and emotionally withdrawn with low self-esteem.
- They may have mental health disorders and display behaviours such as self-harming, self-cutting or anorexia.
- Sometimes they may come to the attention of the police having been discovered shoplifting or taking drugs or alcohol.
- Often children's symptoms can be exacerbated in the periods leading up to the holiday season.
- Children may present with a sudden decline in their performance, aspirations or motivation.
- They may be subject to excessive restrictions and control at home.
- Some children may not be allowed to attend any extra-curricular or after-school activities.

- Girls and young women may be accompanied to and from school/college, and even during lunch breaks.
- Some children may stop attending school or college.
- Their homework is incomplete or appears rushed. This may be the result of being actively discouraged from doing it by family members.
- Children may do their homework late at night, which frequently shows in school because they are lethargic, unable to concentrate and have a general appearance of tiredness.
- Professionals being told that the child is out of the country.
- There are occasions when older siblings (usually brothers) and cousins keep a close eye on girls to make sure that they do not meet anyone or talk to friends.
- Conflict between the child and their parents about whether the child will be allowed to continue their education.
- Family history of older siblings leaving education early and marrying early.

Preventing radicalisation

Children are vulnerable to extremist ideology and radicalisation. Similar to protecting children from other forms of harms and abuse, protecting children from this risk should be a part of a schools' or colleges' safeguarding approach.

- **Extremism** is the vocal or active opposition to our fundamental values, including democracy, the rule of law, individual liberty and the mutual respect and tolerance of different faiths and beliefs. This also includes calling for the death of members of the armed forces.
- **Radicalisation** refers to the process by which a person comes to support terrorism and extremist ideologies associated with terrorist groups.
- **Terrorism** is an action that endangers or causes serious violence to a person/people; causes serious damage to property; or seriously interferes or disrupts an electronic system. The use or threat **must** be designed to influence the government or to intimidate the public and is made for the purpose of advancing a political, religious or ideological cause.

There is no single way of identifying whether a child is likely to be susceptible to an extremist ideology. Background factors combined with specific influences such as family and friends may contribute to a child's vulnerability. Similarly, radicalisation can occur through many different methods (such as social media or the internet) and settings (such as within the home).

However, it is possible to protect vulnerable people from extremist ideology and intervene to prevent those at risk of radicalisation being radicalised. As with other safeguarding risks, staff should be alert to changes in children's behaviour, which could indicate that they may be in need of help or protection. Staff should use their judgement in identifying children who might be at risk of radicalisation and act proportionately which may include the designated safeguarding lead (or deputy) making a Prevent referral.

The school's DSL (and any deputies) should be aware of local procedures for making a Prevent referral.

The Prevent Duty

All schools and colleges are subject to a duty under section 26 of the Counter Terrorism and Security Act 2015 (the CTSA 2015), in the exercise of their functions, to have "due regard to the need to prevent people from being drawn into terrorism". This duty is known as the Prevent duty.

School Leaders must:

- Familiarise themselves with the revised Prevent duty guidance: for England and Wales
- Take part in Prevent training and ensure staff have the relevant training
- Assess local risk of extremism
- Ensure there are robust IT protocols to filter out extremist materials
- Ensure school buildings are not being used to give a platform to extremists

Channel

Channel is a voluntary, confidential support programme which focuses on providing support at an early stage to people who are identified as being vulnerable to being drawn into terrorism.

Prevent referrals may be passed to a multi-agency Channel panel, which will discuss the individual referred to determine whether they are vulnerable to being drawn into terrorism and consider the appropriate support required. A representative from the school or college may be asked to attend the Channel panel to help with this assessment. An individual's engagement with the programme is entirely voluntary at all stages.

Understanding and recognising risks and vulnerabilities of radicalisation

Children and young people can be drawn into violence or they can be exposed to the messages of extremist groups by many means. These may include through the influence of family members or friends and/or direct contact with extremist groups and organisations or, increasingly, through the internet. This can put a young person at risk of being drawn into criminal activity and has the potential to cause significant harm.

Staff should use their judgement in identifying children who might be at risk of radicalisation and act proportionately which may include the designated safeguarding lead (or deputy) making a Prevent referral.

Possible indicators include:

- Use of inappropriate language
- Possession of violent extremist literature
- Behavioural changes
- Advocating violent actions including:
- Association with known extremists
- Seeking to recruit others to an extremist ideology

Private fostering

Many people find themselves looking after someone else's child without realising that they may be involved in private fostering. A private fostering arrangement is one that is made privately (that is to say without the involvement of a local authority) for the care of a child under the age of 16 (under 18, if disabled) by someone other than a parent or immediate relative. If the arrangement is to last, or has lasted, for 28 days or more it is private fostering.

The Children Act 1989 defines a relative as a grandparent, brother, sister, uncle or aunt (whether of full blood or half blood or by marriage or civil partnership), or a step parent.

People become involved in private fostering for all kinds of reasons. Examples of private fostering include:

- Children who need alternative care because of parental illness
- Children whose parents cannot care for them because their work or study involves long or antisocial hours
- Children sent from abroad to stay with another family, usually to improve their educational opportunities
- Unaccompanied asylum-seeking and refugee children
- Teenagers who stay with friends (or other non-relatives) because they have fallen out with their parents
- Children staying with families while attending a school away from their home area

There is a mandatory duty on the school to inform children's social care of a private fostering Arrangement. Children's social care has a duty to check that the young person is being properly cared for and that the arrangement is satisfactory.

Children missing from education

All staff should be aware that children going missing, particularly repeatedly, can act as a vital warning sign of a range of safeguarding possibilities. This may include abuse and neglect, which may include sexual abuse or exploitation and can also be a sign of child criminal exploitation including involvement in county lines. It may indicate mental health problems, risk of substance abuse, risk of travelling to conflict zones, risk of female genital mutilation, 'honour'-based abuse or risk of forced marriage.

Early intervention is necessary to identify the existence of any underlying safeguarding risk and to help prevent the risks of a child going missing in future. Staff should be aware of their school's or college's unauthorised absence and children missing from education procedures.

Further information can be found in 'Children Missing Education' statutory guidance for local authorities – September 2016.

Sexual violence and sexual harassment

Sexual violence and sexual harassment can occur between two children of any age and sex from primary to secondary stage and into colleges. It can also occur online. It can also occur through a group of children sexually assaulting or sexually harassing a single child or group of children.

Children who are victims of sexual violence and sexual harassment will likely find the experience stressful and distressing. This will, in all likelihood, adversely affect their educational attainment and will be exacerbated if the alleged perpetrator(s) attends the same school or college. Sexual violence and sexual harassment exist on a continuum and may overlap, they can occur online and face to face (both physically and verbally) and are never acceptable.

It is essential that all victims are reassured that they are being taken seriously and that they will be supported and kept safe. A victim should never be given the impression that they are creating a problem by reporting sexual violence or sexual harassment. Nor should a victim ever be made to feel ashamed for making a report.

Staff should be aware that some groups are potentially more at risk. Evidence shows girls, children with special educational needs and disabilities (SEND) and LGBT children are at greater risk.

All staff have been made aware of the importance of:

- Challenging inappropriate behaviours
- Making clear that sexual violence and sexual harassment is not acceptable, will never be tolerated and is not an inevitable part of growing up
- Not tolerating or dismissing sexual violence or sexual harassment as “banter”, “part of growing up”, “just having a laugh” or “boys being boys”
- Challenging physical behaviours (potentially criminal in nature), such as grabbing bottoms, breasts and genitalia, pulling down trousers, flicking bras and lifting up skirts
- Dismissing or tolerating such behaviours risks normalising them

Sexualised behaviour

Green Behaviours...	Amber Behaviours...	Red Behaviours...
are part of safe and healthy sexual development which are: <ul style="list-style-type: none"> • displayed between children or young people of similar age or developmental ability • reflect curiosity, experimentation, consensual activities and positive choices • ‘normal’ but inappropriate within the school/classroom setting 	are potentially outside of safe and healthy development due to: <ul style="list-style-type: none"> • age or developmental differences • activity type, frequency, duration or context 	are clearly outside of safe and healthy development and: <ul style="list-style-type: none"> • involve much more coerciveness, secrecy, compulsiveness & threat • require action from school & other agencies

For further information of sexualised behaviour thresholds visit [Harmful sexual behaviour framework: an evidence-informed operational framework for children and young people displaying harmful sexual behaviours \(nspcc.org.uk\)](https://www.nspcc.org.uk/keeping-children-safe/sexual-abuse-and-exploitation/harmful-sexual-behaviour-framework/)

Sexual violence

It is important that school and college staff are aware of sexual violence and the fact children can, and sometimes do, abuse other children in this way and that it can happen both inside and outside of school/college. When referring to sexual violence we are referring to sexual violence offences under the Sexual Offences Act 2003 as described below:

Rape

A person (A) commits an offence of rape if: he intentionally penetrates the vagina, anus or mouth of another person (B) with his penis, B does not consent to the penetration and A does not reasonably believe that B consents.

Assault by Penetration

A person (A) commits an offence if: s/he intentionally penetrates the vagina or anus of another person (B) with a part of her/his body or anything else, the penetration is sexual, B does not consent to the penetration and A does not reasonably believe that B consents.

Sexual Assault

A person (A) commits an offence of sexual assault if: s/he intentionally touches another person (B), the touching is sexual, B does not consent to the touching and A does not reasonably believe that B consents. (Schools should be aware that sexual assault covers a very wide range of behaviour so a single act of kissing someone without consent, or touching someone's bottom/breasts/genitalia without consent, can still constitute sexual assault.)

Causing someone to engage in sexual activity without consent

A person (A) commits an offence if: s/he intentionally causes another person (B) to engage in an activity, the activity is sexual, B does not consent to engaging in the activity, and A does not reasonably believe that B consents. (This could include forcing someone to strip, touch themselves sexually, or to engage in sexual activity with a third party.)

What is consent?

Consent is about having the freedom and capacity to choose. Consent to sexual activity may be given to one sort of sexual activity but not another, e.g. to vaginal but not anal sex or penetration with conditions, such as wearing a condom. Consent can be withdrawn at any time during sexual activity and each time activity occurs. Someone consents to vaginal, anal or oral penetration only if s/he agrees by choice to that penetration and has the freedom and capacity to make that choice. Further information about consent can be found here: [Rape Crisis England & Wales - Sexual consent](#)

- A child under the age of 13 can never consent to any sexual activity
- The age of consent is 16
- Sexual intercourse without consent is rape

Sexual harassment

When referring to sexual harassment we mean 'unwanted conduct of a sexual nature' that can occur online and offline and both inside and outside of school/college. When we reference sexual harassment, we do so in the context of child on child sexual harassment. Sexual harassment is likely to: violate a child's dignity, and/or make them feel intimidated, degraded or humiliated and/or create a hostile, offensive or sexualised environment.

Whilst not intended to be an exhaustive list, sexual harassment can include:

- Sexual comments, such as: telling sexual stories, making lewd comments, making sexual remarks about clothes and appearance and calling someone sexualised names
- Sexual “jokes” or taunting
- Physical behaviour, such as: deliberately brushing against someone, interfering with someone’s clothes (schools and colleges should be considering when any of this crosses a line into sexual violence - it is important to talk to and consider the experience of the victim) and displaying pictures, photos or drawings of a sexual nature
- Online sexual harassment. This may be standalone, or part of a wider pattern of sexual harassment and/or sexual violence. It may include:
 - consensual and non-consensual sharing of nudes and semi-nude images and/or videos
 - sharing of unwanted explicit content
 - upskirting (is a criminal offence)
 - sexualised online bullying
 - unwanted sexual comments and messages, including, on social media
 - sexual exploitation; coercion and threats

Upskirting

The Voyeurism (Offences) Act 2019, which is commonly known as the Upskirting Act, came into force on 12 April 2019. ‘Upskirting’ is where someone takes a picture under a persons’ clothing (not necessarily a skirt) without their permission and or knowledge, with the intention of viewing their genitals or buttocks (with or without underwear) to obtain sexual gratification, or cause the victim humiliation, distress or alarm. It is a criminal offence. Anyone of any sex, can be a victim.

Modern Slavery

Modern slavery encompasses human trafficking and slavery, servitude and forced or compulsory labour. Exploitation can take many forms, including: sexual exploitation, forced labour, slavery, servitude, forced criminality and the removal of organs.

Further information on the signs that someone may be a victim of modern slavery, the support available to victims and how to refer them to the NRM (National Referral Mechanism) is available in the Modern Slavery Statutory Guidance. Modern slavery: how to identify and support victims - GOV.UK (www.gov.uk)

Human Trafficking

Human trafficking is ‘the recruitment, transportation, transfer, harbouring or receipt of persons, by means of the threat or use of force or other forms of coercion, abduction, fraud, deception, of the abuse of power or of a position of vulnerability or of the giving or receiving of payments or benefits to achieve the consent of a person having control over another person, for the purpose of exploitation. Exploitation shall include, at a minimum, the exploitation of the prostitution of others or other forms of sexual exploitation, forced labour or services, slavery or practices similar to slavery, servitude or the removal of organs’.

Child trafficking

“Child” shall mean any person under eighteen years of age. Any child transported for exploitative reasons is considered to be a trafficking victim, whether or not they have been forced or deceived. This is partly because it is **not considered possible for children to give informed consent**. Even when a child understands what has happened, they may still appear to submit willingly to what they believe to be the will of their parents or accompanying adults. It is important that these children are protected too.

Children are trafficked for many reasons, including sexual exploitation, domestic servitude, labour, benefit fraud and involvement in criminal activity such as pick-pocketing, theft and working in cannabis farms. There are a number of cases of minors being exploited in the sex industry. Although there is no evidence of other forms of exploitation such as ‘organ donation or ‘harvesting’, all agencies should remain vigilant.

Children may be trafficked from other countries for a variety of reasons. There are a number of factors in the country of origin which might make children vulnerable to being trafficked.

The factors listed below are by no means a comprehensive list:

- Poverty
- Lack of education
- Discrimination
- Cultural attitudes
- Grooming
- Dysfunctional families
- Political conflict and economic transition and
- Inadequate local laws and regulations

Potential indicators that a child may have been trafficked

Once in the UK the child:

- Receives unexplained/unidentified phone calls whilst in placement/temporary accommodation
- Shows signs of physical or sexual abuse, and/or has contracted a sexually transmitted infection or has an unwanted pregnancy
- Has a history with missing links and unexplained moves
- Has gone missing from local authority care
- Is required to earn a minimum amount of money every day
- Works in various locations
- Has limited freedom of movement
- Appears to be missing for periods
- Is known to beg for money
- Performs excessive housework chores and rarely leaves the residence
- Is being cared for by adult/s who are not their parents and the quality of the relationship between the child and their adult carers is not good; is one among a number of unrelated children found at one address
- Has not been registered with or attended a GP practice
- Has not been enrolled in school
- Has to pay off an exorbitant debt, e.g. for travel costs, before having control over own earnings, is permanently deprived of a large part of their earnings by another person
- Is excessively afraid of being deported

www.gov.uk/government/publications/safeguarding-children-who-may-have-been-trafficked-practice-guidance

Child abduction and community safety incidents

Child abduction is the unauthorised removal or retention of a minor from a parent or anyone with legal responsibility for the child. Child abduction can be committed by parents or other family members; by people known but not related to the victim (such as neighbours, friends and acquaintances); and by strangers.

Other community safety incidents in the vicinity of a school can raise concerns amongst children and parents, for example, people loitering nearby, unknown adults engaging children in conversation, rumours about undesirable residents or adults in vehicles approaching children. As children get older and are granted more independence (for example, as they start walking to school on their own) it is important they are given practical advice on how to keep themselves safe.

Insert details about how your school's curriculum addresses how pupils are taught to stay safe within the community. Further information is available at: www.actionagainstabduction.org and www.clevernevergoes.org

Domestic Abuse

The Domestic Abuse Act 2021 received Royal Assent on 29 April 2021. The Act introduces the first ever statutory definition of domestic abuse and recognises the impact of domestic abuse on children, as victims in their own right, if they see, hear or experience the effects of abuse.

The statutory definition of domestic abuse, based on the previous cross-government definition, ensures that different types of relationships are captured, including ex-partners and family members or an institutional and community setting by those known to them or, more rarely, by others. (KCSIE)

The cross-government definition of domestic abuse is

Any incident or pattern of incidents of controlling, coercive, threatening behaviour, violence or abuse between those aged 16 or over who are, or have been, intimate partners or family members regardless of gender or sexuality. The abuse can encompass, but is not limited to:

- Psychological
- Physical
- Sexual
- Financial
- Emotional

All children can witness and be adversely affected by domestic abuse in the context of their home life where domestic abuse occurs between family members.

Domestic Abuse can impact on children through seeing, hearing or experiencing. In some cases, a child may blame themselves for the abuse or may have had to leave the family home as a result.

Children can also experience domestic abuse within their own intimate relationships. This form of child on child abuse is sometimes referred to as 'teenage relationship abuse'. Depending on the age of the young people, this may not be recognised in law under the statutory definition of 'domestic abuse' (if one or both parties are under 16). However, as with any child under 18, where there are concerns about safety or welfare, child safeguarding procedures will be followed and both young victims and young perpetrators will be offered support.

Signs, indicators and effects

It is often difficult to tell if domestic abuse is happening because it takes place in the family home and abusers can act very differently when other people are around. Children who witness domestic abuse may show signs of:

- Aggression and bullying
- Anti-social behaviour
- Depression, anxiety or have suicidal thoughts
- Attention seeking
- Bed wetting, nightmares or insomnia
- Drug and alcohol misuse
- Constant or regular sickness, such as colds and headaches
- Eating disorders
- Not doing as well in school – due to difficulties at home or disruption of moving to, as well as from, refuges
- Withdrawal

Other signs and symptoms may include:

- Sudden change of behaviour
- Clingy
- Soiling clothes
- Risk taking behaviours
- Missing school

- Changes in eating habits
- Obsessive behaviour
- Self-harm

Source: www.nspcc.org.uk

Some children may not display any symptoms / behaviours that may be a cause for concern. 'What is life like at home?' – is a good question to use regularly with all children.

We are an 'Operation Encompass' school

Operation Encompass operates in all police forces across England. It helps police and schools work together to provide emotional and practical help to children. The system ensures that when police are called to an incident of domestic abuse, where there are children in the household who have experienced the domestic incident, the police should inform the key adult (usually the designated safeguarding lead) in school before the child or children arrive at school the following day. This ensures that the school has up to date relevant information about the child's circumstances and can enable immediate support to be put in place, according to the child's needs.

Homelessness

Being homeless or being at risk of becoming homeless presents a real risk to a child's welfare. The designated safeguarding lead (and any deputies) should be aware of contact details and referral routes into the Local Housing Authority so they can raise/progress concerns at the earliest opportunity.

Indicators that a family may be at risk of homelessness include household debt, rent arrears, domestic abuse and anti-social behaviour, as well as the family being asked to leave a property. (KCSIE)

Types of homelessness could include:

- Living in temporary or emergency accommodation (such as B & Bs and hostels)
- Hidden homelessness (staying with friends or family on a temporary basis or living in overcrowded conditions)
- Couch / sofa surfing, moving from one place to another

Impact of homelessness:

- Practical issues include loss of possessions required for school e.g. books, uniform etc.
- May be unkempt due to lack of laundry services
- Physically exhausted due to sleeping arrangements

- Emotionally exhausted due to increased stress
- Signs of severe emotional trauma leading to emotional stress, anxiety
- Changes in behaviour and/or problematic behaviour
- Child may become withdrawn or aggressive
- If placed out of area they may arrive late or miss school due to transport / financial difficulties
- The child’s ability to maintain relationships may be affected
- May ‘stand out’ more to peers, leading to feelings of alienation and self-consciousness
- Impact on attainment levels and ability to learn (Shelter 2017)

In most cases school and college staff will be considering homelessness in the context of children who live with their families, and intervention will be on that basis. However, it should also be recognised in some cases 16 and 17 year olds could be living independently from their parents or guardians, for example through their exclusion from the family home, and will require a different level of intervention and support. Children’s social care will be the lead agency for these children and the designated safeguarding lead (or a deputy) should ensure appropriate referrals are made based on the child’s circumstances. (KCSIE)

This Policy overview will be reviewed annually or in light of any changes in legislation and/or guidance and then must be ratified by the governing body.

This Policy will be reviewed annually or in light of any changes in legislation and/or guidance. This policy will be updated by our School/Setting at any time that local solutions such as front door services in social care or the LADO details change. This policy may also be amended following the annual review with staff where our School/Setting's procedures or practices may change following whole staff discussion or training to ensure it is the most effective policy in keeping our children safe.
